## KNOX IS TAKEN TO TASK FOR CRITICIZING BANKS

Fear None Safe Viewed as G. O. P. Planning To Void Stability Laws.

DETROIT, Sept. 15.—(AP)—Representative Henry D. Steagall, Democrat, Alabama, chairman of the house committee on banking and currency, characterized today as "ridiculous and absurd" today assertions attributed to Frank Knox, Republican candidate for vice president, that "no life insurance is secure; no savings bank safe."

Steagall was one of a group of speakers before the annual meeting of the National Association of Supervisors of State Banks.

Leo T. Crowley, chairman of the Federal Deposit Insurance Corporation, another speaker, asserted that "many of the banks which never should have been chartered" were liquidated between 1929 and 1933. He declared the banking structure now "is in a stronger position than it has been for many years."

Steagall said that "in 1932 we had 14,500 bank failures with deposits of more than \$700,000,000. The year previous, 2,234 banks had failed with deposits of nearly \$2,000,000,000."

"Since the passage of the banking act of 1933," he added, "there have been no losses of consequence to depositors in banks."

"If the statements to which I refer are based on fact, the people have a right to expect that in case of Republican success every legitimate effort will be made to annul what has been accomplished."

"ASSININE," SAYS ARKANSAS OFFICIAL

LITTLE ROCK, Ark., Sept. 15.—(AP)—State Insurance Commissioner U. A. Gentry said today Colonel Frank Knox's campaign assertion "no life insurance policy is secure" was the "most assinine statement of the season."

Gentry made that reply to a query received today from Commissioner Sam B. King, of South Carolina, for his opinion of the "worth of life insurance policies in the companies under your supervision." King quoted the Republican candidate for vice president on the campaign issue.

tuat assistance. Asked for comment on the Knox assertion, the chief executive first declined, and then added in Latin: "Res ipsa loquitur," meaning "The thing itself speaks."

The entire statement handed out by Williams, however, dealt with the condition of the insurance companies, and their relations with the government under the New Deal.

"We advised the President," the statement said, "that between January 1, 1933 and June 30, of this year, the combined assets of all life insurance companies in this country increased more than \$3,000,000,000. These assets now total approximately \$22,915,000,000 against \$20,900,000,000 at the beginning of 1933."

Williams added that "the pronounced improvement in general conditions was reflected by a falling off of loans to policyholders from 18 per cent of the companies' assets in 1933 to 14 per cent at present."

Government Help.

He said the President referred to various activities of the government which were "helpful to the companies," including the purchase of \$291,972,000 in farm mortgages, refinancing of \$188,000,000 of small home mortgages, and loans to life insurance companies of \$2,500,000.

"These stabilizing activities of the government," he added, "were very instrumental in enabling the companies promptly to fulfill their contracts with policyholders throughout the depression."

After noting that the President complimented the insurance executive on their "successful stewardship," Williams concluded:

"There can be no doubt, all the reports to the contrary notwithstanding, but that American citizens who hold life insurance policies issued by insurance companies in the United States are safe."

## FIRST LADY BACK AT WHITE HOUSE

Mrs. Roosevelt To Participate in Human Needs Mobilization.

WASHINGTON, Sept. 15.—(AP)—Mrs. Franklin D. Roosevelt returned to the White House today for her annual participation in the mobilization for human needs.

Since 1933 Mrs. Roosevelt has headed the women's committee of the mobilization in its yearly drive toward continuance of contributions to the established private charities.

In this capacity, she will preside Thursday in the west room of the White House over a woman's meeting which will immediately follow the presidential address opening the general conference. She will also attend the luncheon which follows.

Except for an occasional brief visit, Mrs. Roosevelt has been away from the executive mansion since early in July, and most of that time has been "off the record," holding no press conferences. She has taken several extended trips, including part of the President's southern tour, and a stay at Campobello, where she met him at the end of his vacation cruise.

Preceding the party was a presentation of insurance by Stephen T. Early, a presidential secretary, that Mr. Roosevelt had "no intention or thought, as has been charged in some quarters," that the federal government would create an insurance agency.

## U. S. NEUTRALITY LAW CRITICIZED BY BAKER

of distress becomes greater than they are willing to bear."

After asserting that "It has become the fashion to suggest that our entry into the war was not in fact for the reason then stated and generally accepted," Baker says that he has devoted most of his free time during the past year to the study resulting in this article.

He says the suggestions that pressure of special interests seeking advantage or the beguilements of foreign propaganda influenced the decision to enter the war "strain the imagination to the breaking point."

His studies, he says, led him to "the clear conviction that the entry of the United States into the World War was not in the least affected by munitions makers or bankers, that the business interests of the country and the welfare of our people during the long struggle were a constant, but, as it seems to me, a proper object of solicitude by the government, but that nothing done in the protection of the business interests affected the ultimate decision."

"I am convinced also that our entrance into the war was caused directly and solely by the German use of the submarine and that to the last President Wilson worked to keep America out of the war, not only for those reasons which would move any enlightened statesman who tried to save his country from such horrors, but also and primarily because of the conviction that a saving of the honor of the United States was at stake."

Wilson's idealism, Baker concludes, "was in fact a very far-seeing but stern realism."

"We Americans at the present moment are looking with dread and disapproval at the menace of war which hangs over Europe."

He says the causes of international dissension may be analyzed as irritation, but by any standard, they are "For all practical purposes," he adds, "nations have ultimate interests which they would rather fight for than surrender."

Those interests, Baker says, are "the life, liberty and property of the people of the world."

## Home From Strife-Ravaged Spain, Atlantan Tells of 'War's Horrors

William Brenner Declares Present Fighting Is Only Class Discord.

William Brenner, civil engineer, who lives at 2467 Peachtree road, arrived in Atlanta yesterday direct from revolution-ravaged Spain, where he had been on business. He spends six months a year in that country and maintains a residence at Barcelona. He was in Barcelona when the revolution broke out on August 19 and left Spain on a British cruiser, going to London. Brenner wrote this article exclusively for The Constitution.

By WILLIAM BRENNER.

Spain's civil war is nothing in the world but a class war. The Loyalists—Communists and anarchists—are battling the Rebels—or Rightists. For the most part, the Loyalists are composed of laborers—a young girl who has one goal in front of them—the division of property, and what they consider a fair division is fifty-fifty. Americans have no idea of the horrors taking place in Spain. No newspaper account can be relied upon, for all the papers in the war-torn country belong to one side or the other. There is no such thing as an independent newspaper there. Radio stations are handicapped equally as much because all they are permitted to broadcast is information released by the faction which controls them.

The unrest in Spain has been brewing for a long time. Several months ago an elevator strike occurred in Madrid. Operators demanded a 50 per cent hike in salaries. The employers simply could not afford to pay such a huge sum of money. The strike was declared. The labor government had the employers put in jail to think the situation over. That was the first outbreak.

Some time later the strongest of the conservative leaders was killed after soldiers had entered his home and routed him from his bed. That was incident number two.

In Midst of Shooting.

On the morning of August 19 I was lying in a bed in my flat in Barcelona. I was about 4:30 o'clock and I was having trouble sleeping. I asked one of my servants to bring me some tea, and it arrived about 4:45 o'clock. I turned on the light and saw a racket, like someone pouring coal down a chute. At my command the servant ran to the window and reported there were soldiers firing guns in the street. It was no trouble to mine, so I turned over and went back to sleep. When I awoke about 8 o'clock the scene had changed. Loyalists, sparsely dressed, were all over the streets.

These Loyalist troops can be compared to the "sans culottes" of the French Revolution. Most of them are over 40 years of age. They are not young men in overalls, with their girls, riding in such fine cars. Next these "sans culottes" took over the tobacco concessions. I quit smoking then for a month, because no tobacco could be bought.

Loyalist Soldiers Club.

Instead of the richest men of the city being in the finest club of Barcelona, the Loyalists had taken over the club. They took none but the finest cars. It was a sight to see these young men in overalls, with their girls, riding in such fine cars.

## LEAGUE COUNCIL SEEKS CO-OPERATION OF U. S.

forts to secure organized co-operation with the League.

They specially want joint world-wide action on such problems as prevention of war and a new attempt to halt the world armament race.

The French government has announced it will make new proposals for an armaments agreement. Its decision came after Germany's disclosure of an increase in the term of conscript service for German soldiers from one to two years.

The general trend in the memoranda from 15 nations was that the League covenant did not need amendment. Some pointed out if the covenant were observed faithfully war would be outlawed.

Soviet Russia proposed adoption of a special protocol of interpretation to reinforce the covenant. Like France, Russia attached great importance to the rapid operation of mutual assistance pacts against an aggressor nation, apparently believing there is no hope all members will participate in military sanctions, as was evidenced by Italy's Ethiopian venture, which the League pronounced aggressive.

Uruguay and Colombia virtually agreed to the League's proposal to handle local problems. Colombia proposed military sanctions should be obligatory only for nations on the aggressor's continent.

On the other hand, New Zealand—undismayed by the League's Ethiopian failure—suggested the League be a world policeman, armed with a big stick—an international army, navy and air force.

"This is horribly funny," he said. "I don't dream any official body would be so completely lacking in sense of humor to take such a hilarious accusation seriously."

"If I was a nation, I'd pay its debts," the nation would come back and say "that is a lie, we do pay our debts," and we could understand it."

"But for the Latins to read an article saying they were lousy lovers, and then to have them puff up their chests and say, 'on the contrary we are swell lovers,' is just too much."

He said the article was written by an American woman who "gave them the works."

While saying new activities might require some increased outlays, Bell added "it is hoped reductions will be made in other expenditures which will more than offset the necessary increases" in order that a "substantial reduction" below appropriations for the current year might be effected.

Estimates for national defense, fixed at \$920,000,000 for the current year, probably will go over \$1,000,000,000 in the next fiscal year, officials said, because programs now under way will call for additional expenditures.

dictated the disturbance might be on the verge of recurring.

Because of the distance of the storm from the American coastline and the likelihood of its veering to the northeast, Dunn said, there was no cause for alarm in the United States.

The wind at Hamilton, chief city of Bermuda, reached 40 miles an hour today and the barometer was falling slowly.

Dunn said a high pressure area extending over the northeastern portion of the United States and Canada and reaching into the Atlantic north of Bermuda had blocked the disturbance to some extent, slowing down its forward movement.

Clearer and Clearer.

"They have strained and striven in many negotiations since the war to dispel that vision, but it appears to grow clearer and clearer." Without mentioning any of them by name, he said "strong nations have chosen to proceed in disregard of" the Kellogg anti-war pact.

"It is for the statesmen to continue their effort to effect security by new agreements which will prove more durable than those that have been broken," he went on. "This government would welcome that achievement."

After declaring that "we do not seek or threaten the territory or possessions of others," Mr. Hull spoke of the increase in this country's defense forces. He emphasized that "we stand ready to participate in all attempts to limit armaments by mutual accord," but said:

"We would not serve the cause of peace by sitting in the world today without adequate powers of self-defense. We must be sure that in our desire for peace, we will not appear to any other country weak and unable to resist the use of force or to protect our just rights."

Briefly, he cited this country's friendly relations with "our great neighbor Canada," and with the American republics to the south.

Criticism of the trade agreement signed with the dominion last year he attributed to "misjudgment or distortion of the facts."

## CUBA CONFISCATES COPIES OF ESQUIRE

Officials Angered by Article Entitled, 'Latins Are Lousy Lovers.'

HAVANA, Sept. 15.—(AP)—Angered by an article entitled "Latins Are Lousy Lovers," national police today confiscated all copies of the October issue of the magazine Esquire.

A news dealer, Marcel Perez, was arrested and more than 200 copies of the publication were seized in his establishment.

The article was published anonymously, but phrases in it indicated it was by an American woman. It dealt with the alleged shortcomings of Cubans as lovers.

The writer, in the article, said that while the story dealt with the Latins in general, she was writing particularly of the Cubans because she had lived in Cuba five months.

Although articles in North American publications have attacked the government and its leaders, this is the first time in many years that any periodical has been confiscated.

HAVE NO SENSE OF HUMOR. ESQUIRE EDITOR SAYS

CHICAGO, Sept. 15.—(AP)—Arnold Gingrich, editor of the magazine Esquire, said tonight that confiscation of the October issue of the publication by Cuban national police because of an article entitled "Latins Are Lousy Lovers" would "seem to be proof that Latins are not only lousy lovers, but are also humorless."

The editor expressed "great surprise" at arrest of the Esquire distributor in Havana, and said:

"Did they really pinch that chap?" he asked.

"This is horribly funny," he said. "I don't dream any official body would be so completely lacking in sense of humor to take such a hilarious accusation seriously."

"If I was a nation, I'd pay its debts," the nation would come back and say "that is a lie, we do pay our debts," and we could understand it."

**Federal Court Is Asked To Bar Examination of Telegrams.**

WASHINGTON, Sept. 15.—(AP)—The right of the La Follette senatorial committee to seize private telegrams in its investigation of civil liberties violations in industrial espionage was challenged in the federal district court here today.

A suit seeking to prevent the Western Union and Postal Telegraph Companies from turning over records and messages to the committee was filed by the Railway Audit and Inspection Company of Philadelphia and the Central Industrial Service Company, a Delaware corporation.

W. W. Groves, president of both firms, and 11 employees and officers joined in filing the injunction request. Justice Joseph W. Cox ordered the telegraph companies to appear for a hearing next Monday, one day before the committee is scheduled to resume its inquiry. The firms are accused of labor espionage and strike-breaking.

Business sources reported the committee had subpoenaed telegrams sent and received by the Groves companies, and others involved in the inquiry, since January 1, 1935.

In a similar suit brought by Stiles Strawn the same court forbade the telegraph companies to turn over records in response to a subpoena by the Black senate committee.

Individuals who joined in the suit include G. E. Ivey, of Georgia, president attorney.

**GERMANY STALLS NEW LOCARNO PACT**

**Britain, France, Belgium Ready To Agree; Nazis Want 'Groundwork.'**

LONDON, Sept. 15.—(AP)—Italy and Germany, insisting on "adequate" diplomatic groundwork, today dithered British hopes for conclusions of a new, five-power Locarno pact next month.

With Britain, France and Belgium ready to proceed to thresh out arrangements for a European security agreement on October 19, Germany served notice she considered the interim insufficient for such groundwork and Italy suggested that further diplomatic exchanges take place before a definite date is set.

The Locarno question has been a troublesome one since Adolf Hitler's German troops reoccupied the Rhineland last spring in denunciation of the 1925 pact. Conversations between England, France and Belgium were held in July to pave the way for a full five-power meeting to discuss the pact and Italy acquiesced, in principle.

Now, however, informed quarters said Great Britain was worried lest Germany try to postpone the five-power meeting indefinitely in order to bring up such questions as the Franco-Soviet mutual assistance pact in preliminary maneuvers.

Hitler, in remilitarizing the Rhineland, cited this Franco-Soviet accord as a Bolshevik "danger" which made necessary a defense on his western border.

SHANGHAI, Sept. 15.—(AP)—Defiant members of the old "19th Route" army, valiant defenders of Shanghai four years ago, tonight were reported blocking both Japanese and Chinese attempts to investigate the mob killing of a Japanese national at Pakhoi, China.

Japan's foreign minister and Japan's ambassador conferred at Nanking on this and a preceding, similar incident, one native newspaper reported.

In a similar suit brought by Stiles Strawn the same court forbade the telegraph companies to turn over records in response to a subpoena by the Black senate committee.

Individuals who joined in the suit include G. E. Ivey, of Georgia, president attorney.

**INDIAN WOMAN, 113, PASSES IN EVERGLADES**

FORT MYERS, Fla., Sept. 15.—(AP)—News came out of the Everglades yesterday by word-of-mouth that Ock-E-Le-Pee, the oldest Seminole woman died Saturday in her 113th year.

Stanley Hanson, white man friendly with the big cypress Seminole tribes, said the aged squaw was buried Sunday, with Episcopal Deaconess Harriet Bedell reading a Christian ceremony. Hanson recounted that Ock-E-Le-Pee smoked a pipe before death, and muttered: "I am tired—want to die."

**8 MORE COUNTIES TO GET DROUTH AID**

WASHINGTON, Sept. 15.—(AP)—Eight counties in Kentucky, Minnesota and Wisconsin today were designated as emergency drouth areas by the Agriculture Department drouth committee, bringing the national total of drouth counties to 1,039 in 24 states. Those designated in Kentucky were Callaway, Laurel, McCracken and Marshall.

**Italy's Staff To Madrid Is Honored at Fascist Headquarters.**

SAINT JEAN DE LUZ, France, Sept. 15.—(AP)—General Emilio Mola's Fascist warships tightened their blockade of northern Spain's government-held ports tonight, hoping to starve out the defenders of Bilbao, Santander and Gijon.

The Fascist insurgents sought to gain complete control of the Bay of Biscay coast, after capturing Irun and San Sebastian on its eastern extremity.

Two government steamers attempting to bring food to Gijon were reported to have been forced to change their routes and take refuge in other ports. Some accounts said the Government forces' supplies were diminishing rapidly.

Near Orio, about 10 miles west of San Sebastian, a contingent of 500 Fascist troops faced some 4,000 government militiamen. The insurgents were said to be guarding against a counter-attack by the previously defeated government soldiers. Other Fascist fighters were sent to more important sectors, including the Madrid front.

San Sebastian authorities at San Sebastian received three officials of the Italian embassy accredited to Madrid. The diplomats were given the Fascist salute and a special escort on their journey from Irun to San Sebastian, but the purpose of their visit was not disclosed.

**Gates of Soldiers Field Closed to Pension Advocate.**

CHICAGO, Sept. 15.—(AP)—The gates of Soldier Field were closed today to a mass meeting sponsored by the Townsend organization but officers of the old age pension group contemplated an effort to force them open by legal action.

Gilmour Young, national secretary, sought permission to use the vast lake front stadium on either September 27 or 28 for a gathering which would feature an address by Dr. Francis E. Townsend.

In Tokyo the Domei (Japanese) news agency reported a "formidable concentration" of Japanese warships in the area and "great tension" in the Japanese army garrison at "ormosa, nearest land force to Pakhoi."

Advices from Hong Kong said a Chinese investigator attempting to inquire into the Pakhoi death was chased by a hostile mob and General Oong Chao-yun, commander of the 19th Route army, refused to heed Chiang Kai-shek's orders to evacuate.

**FAIR, WARM WEATHER IS PROMISED FOR CITY**

Fair skies and gradually warming temperatures will greet Atlantans this morning, the Weather Bureau announced.

Temperatures will range between 68 and 85 degrees. Yesterday the high was 80 and the low was 72.

The weather throughout the southeast is settled, the bureau reports, and no marked changes in conditions are expected. Storm conditions were reported in the upper Mississippi valley and around the Great Lakes, and there was frost in Montana yesterday morning, but local authorities say these conditions will not affect local weather.

**LINDER ORDERS HALT IN DIPPING OF CATTLE**

Commissioner of Agriculture Tom Linder ordered discontinuance yesterday of cattle dipping work in Colquitt, Worth, Tift, Brooks and Thomas counties.

Linder said the eradication program was started in co-operation with the federal government when cattle for ticks were found in south Georgia in the fall of 1935.

He said no ticks have been discovered since February 28, 1936, and that the discontinuance was ordered in view of the progressive program carried on against the tick.

**TEXAS GIRLS DECLARED NATURALLY BEAUTIFUL**

FORT WORTH, Texas, Sept. 15.—(AP)—Southwestern girls naturally have the complexion that New York girls have to get out of powder boxes, in the opinion of John Murray Anderson, noted dance director, in charge of the stage show in Casa Manana at the Frontier Centennial here.

"Southwestern girls have what our Forty-second street hoopers get out of powder boxes," he said. "The healthy sun-tan with just a few freckles—ah, Texas girls are really beautiful."

Anderson should know. About all the show and chorus girls in his latest production are from Texas. The rest from New York.

**FRANCE TO PROSECUTE ARMS MANUFACTURER**

PARIS, Sept. 15.—(AP)—French officials announced tonight the government had decided to prosecute Schneider & Company, arms manufacturers, on charges of poor work on armaments for France.

Similar charges were announced against another arms manufacturer, Marx Dormor, undersecretary in the premier's office, said the manufacturers would be prosecuted for "making false dies" but Minister of the Interior Roger Salengro explained the charges would be based on "bungling" work.

The factory at Creusot, headed by Eugene Schneider, is among those scheduled for nationalization under a new law.

**COLUMBIA INVITATION ACCEPTED BY RIVERS**

COLUMBIA, S. C., Sept. 15.—(AP) Speaker E. D. Rivers, governor-designate of Georgia, accepted today an invitation to address a South Carolina Democratic rally here Tuesday, September 22.

Lane L. Bonner, state Democratic secretary, said Rivers would speak during the early afternoon to Democrats assembled from over the state at a meeting to boost general election voting by the party members.

The Georgia Society of South Carolina, including many federal employees here, will tender the next governor of Georgia a banquet that night, Bonner said.

**Publisher Refused Permission To Attach Private Car to Candidate's Train.**

NEW YORK, Sept. 15.—(AP)—The offices of Paul Block, publisher of a chain of newspapers, announced receipt of a telegram today signed "Alf M. Landon," which said the Republican presidential nominee was "very sorry" the publisher had been "unable to join my train."

Block was refused permission to attach his private to the candidate's special campaign train at Worcester, Mass., yesterday.

The telegram, as announced by Block's secretary, follows: "Am very sorry you were unable to join my train today, as I had been looking forward to opportunity of talking with you, but just learned from newspapers that you were in Worcester and regret this necessity of being in New York prevented you from coming aboard. Hope you may be able to board my train at some future time or if you happen to be coming to Kansas you will stop in Topeka."

"Alf M. Landon."

Block's secretary, who said she had not yet reached the publisher for comment on the private car incident, said Block had recently conferred with Governor Landon, and expected to confer with him again at Milwaukee on Saturday, September 26.

Block's newspapers have been supporting Governor Landon.

**Bullitt Is Sworn In as Ambassador to Paris.**

WASHINGTON, Sept. 15.—(AP)—William C. Bullitt took the oath today as ambassador to France and thereby formally relinquished his commission as the United States first envoy to Soviet Russia.

The Philadelphia recently was appointed to the Paris post by President Roosevelt to succeed Jesse I. Straus, New York department store operator, who resigned because of his health.

The oath was administered by Percy Allen, State Department administrative clerk, in the presence of R. Walton Moore, acting secretary of state.

Bullitt will sail for Paris on the liner Washington leaving New York September 23.

**ASTOR PICTURE WINS OVATIONS AT TRYOUTS**

HOLLYWOOD, Sept. 15.—(AP)—Mary Astor's name on the screen has drawn explosions of applause from two suburban audiences since the sensation-laden custody battle with her ex-husband—so studio executives believe has gained rather than lost "box office" popularity.

She plays the "other woman" of a marital triangle in her latest picture ("Dodsworth"), and the studio was frankly worried before the previews.

The picture was two-thirds complete before Miss Astor's suit to regain part custody of her daughter came up for hearing. The hearing was recessed to allow the studio to finish it.

Immediately thereafter the actress was placed on the stand and questioned about Playwright George Kaufman and other men. At the same time her lavender-tinted diary, relating her Hollywood experiences and emotions, became a case issue, although it did not appear in evidence.

**ECONOMISTS TO STUDY MONEY AND BANKING**

NEW YORK, Sept. 15.—(AP)—A new group of economists has entered the study of money and banking in this country, it was announced today by Joseph E. Goodhart, a Boston lawyer.

Goodhart, president of the Society for Stability in Money and Banking, said the following members had been elected to the society's board of governors:

Dean Roscoe Pound, of Harvard law school; H. Parker Willis, professor of banking at Columbia University; Thomas C. Boushall, president of the Morris Plan Bank of Richmond, Va.; Dean Charles C. Fichtner, of the college of business administration of the University of Arkansas; Stuart C. C. D. and Thomas M. Steele, president of the First National Bank & Trust Company of New Haven, Conn.

**HIGH COURT DENIES PETITION OF LEMKE**

TOPEKA, Kan., Sept. 15.—(AP)—The Kansas supreme court today denied a plea of presidential electors pledged to Representative William Lemke, of North Dakota, Union party nominee, that they be placed on the Kansas general election ballot.

Re-elected by Secretary of State Frank J. Ryan because they had not complied with the state's primary election laws, the electors asked the court to order the state to place them on the ballot.

The court, in a memorandum handed down a few hours after hearing arguments on the case, denied the writ.

The court's action left the presidential election field in Kansas confined to Governor Alf M. Landon, President Roosevelt and Norman Thomas, Socialist nominee.

**POWER FIRMS TO FILE BRIEF IN TVA CASE**

NASHVILLE, Tenn., Sept. 15.—(AP)—Charles C. Trahan, Nashville attorney and member of counsel for 19 power companies in a legal battle against the Tennessee Valley Authority, said today a brief summing up the utility case against the TVA will be filed in federal court at Cookeville tomorrow.

The power companies have attacked the authority as unconstitutional. Federal District Judge John J. Gore directed TVA counsel to file an answering brief within a week from tomorrow. The judge will then set a date for a hearing on the question of constitutionality.

**WINTER MONTH AHEAD IN UTAH AND WYOMING**

SALT LAKE CITY, Sept. 15.—(AP)—Winter nipped northern Utah and southern Idaho gardens today fully a month ahead of schedule. At Ogden, Utah, the mercury sank to 30 degrees—two below freezing—exactly a month earlier than a year ago.

A heavy to killing frost was reported in western Wyoming where the temperature dropped to 20 degrees—12 degrees below freezing, in Yellowstone park. It was the lowest ever recorded there for this time of the year.

**Mills Spurns Arbitration and Workers Threaten To Call 100,000.**

PARIS, Sept. 15.—(AP)—Premier Leon Blum tonight declined to concede defeat in efforts to check the threat of a general textile strike and called meetings of employers' and workers' representatives at Lille tomorrow.

With employers refusing to accept arbitration, union leaders threatened to organize 100,000 militant workers in Lille to support the 35,000 "folded arms" strikers there and compel enforcement of a 40-hour week.

Strong police reinforcements were stationed in Lille to prevent possible disorders as public employees warned they might occupy their offices. Sixteen thousand employees walked out in the Vosges department.

The union declared textile workers' pay was "notoriously insufficient," and insisted the government participate in any settlement.

The Lille mill owners demanded the right to prevent "establishment of Soviets" in their factories.

**LAWYER SEEKS RETRIAL FOR KING'S "ALARMER"**

LONDON, Sept. 15.—(AP)—George Andrew McMahon's attorney announced today he would appeal the conviction yesterday which sent McMahon to jail for one year at hard labor for brandishing a revolver with intent "to alarm King Edward VIII."

Before the verdict was reached, McMahon, who "slithered" the weapon at the king's horse during a military procession July 18, urged the court to send him to prison. He told a fantastic tale of a "foreign power" plot to assassinate Edward and begged to be jailed for protection from those whom, he said, he had betrayed by failing to carry out the conspiracy.

**Former Playground of Wilson, Harding Destroyed.**

WASHINGTON, Sept. 15.—(AP)—The country club of two Presidents—Woodrow Wilson and Warren G. Harding—was virtually destroyed early today by a three-hour fire.

Autographed portraits of the two presidents, and signed pictures of General John J. Pershing, former cabinet officers, and other prominent club members were burned in the blaze which razed the frame clubhouse of the Washington Golf and Country Club in nearby Cherrydale, Arlington county, Virginia.

Damage to the club—long a playground of Washington elite—was expected to reach \$50,000, but is covered by insurance.

The fire was discovered by James S. Nicholl, PWA examiner, and Herbert Stearns, club bookkeeper, when they were awakened in their second-floor quarters by the smell of smoke. Firemen and club officials blamed defective wiring.

**1,850-TON DESTROYER IS ACCEPTED BY NAVY**

BOSTON, Sept. 15.—(AP)—The Navy Department accepted today the U. S. S. Case, new 1,850-ton destroyer, at commissioning exercises at the Boston navy yard.

The new destroyer, built at a cost of \$3,500,000 and under construction two years, will be in command of Lieutenant Commander J. S. Roberts.

The destroyer will be equipped with guns within the next month and then will leave on a shakedown cruise. Two other destroyers now under construction at the Boston navy yard, will be launched October 31.

## AN EMPTY VICTORY

The result of the election in Maine, in so far as its bearing on the national campaign is concerned, is, at best, an empty victory for the Republicans.

As a rock-ribbed Republican state that has gone Democratic only once in 60 years, having given its electoral vote to Wilson in 1912, it is the size of the Republican majority and not the fact that the Republicans win that must be used as the yardstick to measure the national significance of the outcome of the election.

With 300,000 voters participating in the election, the largest number in the history of the state, the Democratic candidate for senator trailed the Republican incumbent by little more than 5,000.

In contrast to the 38,000 majority given in 1932 to Hoover against Roosevelt, the 5,000 majority in Monday's balloting can be only cold comfort to the Republicans who, in addition to raising a huge campaign fund for this state campaign, brought the party's candidate three-fourths of the way across the continent to make a last-minute appeal for the Republican candidates.

The real significance of the 157,000 to 152,000 vote in this election is further emphasized by the 176,000 votes given in 1928 to Hoover against \$1,000 for Al Smith and the 138,000 votes in 1924 for Davis. Thus the three-to-one Republican majority of 12 years ago, and the more than two-to-one of eight years ago, has dwindled to a majority representing but a minor per cent of the vote cast.

A Republican majority of from 35,000 to 50,000 in Monday's election might have had a significant bearing on the trend of sentiment throughout the country as being toward the Republicans, but the 5,000 majority—only a seventh of that secured by Hoover against Roosevelt four years ago—cannot be soundly claimed by the Republicans as indicating a drift away from the Democratic administration.

## NEW PACKING PLANT

The \$500,000 plant of the Cudahy Packing Company at Albany, construction of which was begun last May, began operations September 15, thus affording a new and large market for south Georgia hogs, cattle and sheep. The plant is 433 feet long and 126 feet wide. It is modern in every respect, being built of glass brick, is windowless and air-conditioned throughout. With a capacity for handling 8,000 hogs, 1,000 cattle and 500 calves a week, its operation at capacity affords employment to more than 200 persons.

This makes the third of the large northern packing companies to establish plants in Georgia, and is evidence that the progressive men at the head of these great institutions are planning for the future when Georgia will be one of the leading states in the production of meat animals.

For half a century Georgia was an all-cotton state. Now its farmers are turning to diversification of their farming endeavors, with the production of cattle, hogs and sheep, and ample feed crops.

Those who engage in the production of meat animals are insured by past records that they will never be assailed by the vicissitudes that beset stockmen of the north and west. Ample rainfall means that stock will never die of thirst, as they have on the parched lands of the great plains, nor perish for lack of feed, since Georgia soil will produce abundance of pasture and forage, and grains for final finishing.

In addition to the seven packing

houses now in operation, there are numerous sales markets at which stock brings a good price, so our farmers may continue to develop the livestock industry with confidence in the future.

## TWO FINE SELECTIONS

There will be universal approval of the selection by Governor-designate Rivers of Charles S. Reid, prominent Atlanta attorney, as chairman of the new state Democratic executive committee, and of Congressman E. C. Cox as keynoter of the approaching state Democratic convention in Macon.

Mr. Reid is one of the leading members of the Atlanta bar and a man of fine ability and integrity. While he has evidenced a sincere interest in the public welfare he has never been a politician—and that, too, is a strong element of strength in his favor in his discharge of his important duties as chairman of the state executive committee.

He is an intimate friend of Governor-designate Rivers and has been a warm supporter in all of his campaigns. He was a classmate of the next governor at Young Harris and they have been intimately associated since—a further advantage in his occupancy of the state chairmanship, as the governor must, of necessity, maintain close and friendly relations with the state committee.

Congressman Cox will make an ideal keynoter for the Macon convention, which will meet to formally announce the results of a primary in which approval of the Roosevelt administration was the dominating issue. No man in congress has been a more loyal nor able supporter of the administration, and he has to an unusual degree the courage of his convictions, never dodging, but meeting squarely, any issue that might arise.

He is now vice chairman of the speakers' bureau of the national Democratic committee, and is closely identified with the conduct of the national campaign.

As keynoter of the Georgia convention he will send a ringing and aggressive message to the rest of the nation of the loyalty and confidence of the Democratic hosts of this state.

The selection by Governor-designate Rivers of two such able and outstanding Georgians is an augury of the wisdom and foresightedness he will employ in filling the vacancies in the public service that will occur during his administration.

## THE SALVATION ARMY MEET

The conference now being held in Atlanta of Salvation Army leaders from 15 southern states is of particular service in calling the attention to the scope of the work being done by the Army and its needs if it is to serve the community to the extent of the opportunity presented.

In addressing the conference of his fellow officers, Brigadier Holtz, executive in charge of the Army's activities in Atlanta, reported that more than 100,000 persons had attended the indoor meetings held during the past year; 215 mothers enrolled for home economics instruction; that work among underprivileged children was growing rapidly; 400 visits have been made to city and county institutions; hundreds of men have been recalled and turned into channels of usefulness; and a large number of men and women transients have been given food and shelter.

In outlining the opportunity presented for service by the Army in Atlanta, Brigadier Holtz says:

Our survey of Atlanta shows that we have much work to do in the future. We need an evening home for both men and women. We operate these homes in other parts of the country for the aged who have but a small pension to take care of them in their old age. Another great need for Atlanta is a living-in hospital for convalescent mothers. After their discharge from the hospital they still need a week or two for convalescing. Additions must be made to our four community centers so that we will have room and facilities to care for the boys and girls who are not turning away because of the lack of room.

There are many ways in which individual citizens can aid the Salvation Army toward placing its splendid service on the broadest scope possible. Those able to assist financially, every householder can aid by saving old clothes and furniture and waste paper, all of which are a source of income for the Army; and volunteer workers can also be used.

As headquarters for this area of the Army's activities, Atlanta should give to it full and wholehearted support.

An English dictionary has been published containing more than 700,000 words. That's so terrific it leaves us speechless.

That new automatic cotton picker, demonstrated in the south, is said to be a wonder. It does everything, apparently, but play a banjo and shoot craps.

The day of miracles is here. Anyone now can put an end to a boreome political campaign by the simple process of turning off the radio.

## MT. MCKINLEY

Photographed.

North America's highest peak—Mt. McKinley in Alaska, rising to an altitude of 20,300 feet—has, for the first time, been photographed from a plane. The pictures, taken by Bradford Washburn, leader of the National Geographic Society's Mt. McKinley expedition sent to Alaska last July, who has just made a preliminary report to the society's headquarters in Washington, D. C. Some of the photographs were made on an infra-red sensitive film.

In a series of four flights from the Pan-American Airways base at Fairbanks, Alaska, Washburn succeeded in photographing a vast expanse of the rugged terrain between Mt. McKinley and Mt. Hayes.

The pictures reveal the highest territory under the American flag. They also mark the first time the region, of infra-red ray photography, which makes it possible for the same photograph to show the town of Fairbanks and the white summits of Mt. McKinley and its related peaks projecting above the horizon more than a hundred miles away across a haze-obscured plain.

The infra-red photographs show why Mt. McKinley can claim one of the greatest heights, from top to bottom, of the world's mountains. It rises 20,300 feet from a level plain almost without foothills. Mt. Everest, although 29,000 feet above sea level, actually rises only about 10,000 feet above a lofty plateau region. Because of its near Arctic latitude, Mt. McKinley has a very low timber line and is forbiddingly barren. Washburn points out. Its expanses of snow and glacier do not completely cover all its jagged rocky ridges.

The pictures reveal a giant of almost unrealizable magnitude, massive to the very top. Its steeply sloping western face has been called the world's highest cliff—an almost sheer drop of over three miles. The southern side, however, is perhaps more impressive; although only about two miles deep, its wall is perpendicular. Only the two expeditions have been known to scale Mt. McKinley.

On the survey flights, Mr. Washburn was accompanied by S. E. Robins, Radio Engineer Bob Gleason and A. L. Washburn, assistant. Bradford Washburn was also the leader of the National Geographic Society's Yukon expedition of 1925 which explored and photographed nearly 5,000 square miles of unknown territory along the Canadian-Alaskan border. That expedition he discovered two new peaks in Canadian territory, naming them for King George and Queen Mary of England.

"World's Highest Cliff."

The photographs prove conclusively the location of Mt. McKinley, a peak more than 15,000 feet high, about which accurate information has been so scarce that its very existence has been denied. The mountain, though perhaps higher than any in the United States proper, is actually dwarfed to relative insignificance by the towering neighbors. Only the two expeditions have been known to scale Mt. McKinley.

## Good Morning

BY LOUIE D. NEWTON.

WAITING AND FIGURING.

If you are passing along the road in any middle or south Georgia community now, you will soon come upon a cotton gin, and you will see a dozen or more wagons in line, waiting to get up to the suction pipe. These neighbors have a fine opportunity to visit with one another while they wait at the gin. While some are indulging in that rare art of conversation, others stretch out on the soft seats and take a nap.

The other morning I was passing a ginhouse and stopped to look for a friend. I saw a man off to one side sitting down some figures on the wide seat. I walked over to him. "Hi, Louie," he said. "I'm figuring out how much I'm going to get for my cotton today. He looked up with a pleasant face and said:

"Well, not profits so much. I was just trying to figure out how I could do what I have been wanting to do for my little family with what I hope to have as a small balance after I pay for my gun and other fixed expenses of my year."

We discovered that we had met before, after a few exchanges of obvious matters of interest, I was about to pass on, looking for my friend. The man called to me: "Say, Louie, reckon you could help me locate a second-hand piano? My little girl seems like she's right ripe for music, and I am so anxious for her to have a piano. I would make any sort of effort to get her one, but I've just been figuring here and it ain't so hopeful. I was wonderin' if maybe somebody might have one that they don't need and would be willing to sell for a price that I could afford. Here now, I see I have that much to pay out on obligations that can't be changed, and when I put down here how much for clothes and so much here for taxes and so much for groceries that we can't raise on a farm and then I always give a tenth of all I make to the Lord, so you can see that only leaves . . . Say, you see? Man, if you can arrange it, I'll be just about the happiest person in Georgia. Will you let me know right away? No, I won't say a word to her about you trying to arrange it. Thanks a thousand times."

Fathers trying to figure out how they can make pennies add up to help their children are the sort of men who built this nation. God bless them everyone.

## Dante Anniversary.

Dante Alighieri, called Dante, died at the age of 56 on September 14, 1321. He wrote a book called "The Divine Comedy" which never yet was said of any woman, and created the Italian language. For, in foretelling Latin in which the time, all books were printed, and written his masterpiece in the dialect of his native Florence, he made the literary language of the whole Italian peninsula.

The book, of course, was "The Divine Comedy," but Dante didn't get that name to the work which made him immortal. Boecius said that he was a man who was celebrated as a girl with whom he fell in love at nine. She married another man!

## NEWS BEHIND THE NEWS

BY PAUL MALLON.

LUNACY WASHINGTON, Sept. 15.—When Hitler prodded the Reds with a bayonet at Nuremberg, the average conclusion here was that he had suddenly gone crazy. This was not the conclusion in speechless official quarters. There it was gravely realized again that Herr Hitler was being crazy like a fox. The Moscow newspapers had the right dope, or part of it, as it reached those who know most about such matters here.

Hitler wants Czechoslovakia. He wants it by peaceful penetration. A constitutional reorganization there, supplanting the Republican form of government with a federal fascist state, would suit him, and he intends to get it.

He cannot carry forward his plan with the Reds militantly resisting him, especially through their ally, France. He must frighten Moscow into quiescence. He must move while France is too troubled with Spain to worry much about Russia. So he did.

Frankly, our best judges thought it was a clever, dangerous gamble, and probably would work.

The knowledge of Hitler's scheming mind likewise is the Anglo-French revival of talk about renewing the Locarno agreement, which attempted to preserve the European status quo. The French and English will not be thinking or talking seriously about Locarno amid the current brandishing of arms.

## CONCERN

The Reds can stop Hitler only one way—by fighting. The knowledge of that fact at the top here has caused extreme, although silent, concern. Most authorities felt the situation was more dangerous than when the British moved their fleet into the Mediterranean during the Ethiopian war.

Military men doubted it. The Reds are in no position to fight. Behind them, menacingly, are the Japanese, waiting for just such a Soviet distraction so they can move more agilely in their far eastern conquest. Furthermore, Hitler is not ready. If he were, he would not have to be making public announcements to that effect. The best guess is that one more year of preparation at least will be necessary to develop his potential fighting strength.

The betting, therefore, runs hesitantly but preponderantly against the possibility of an outbreak.

## SELF-INTEREST

The craftiest wrinkle in the Hitler diplomatic skein folds over the French. The Russians have an agreement with the French whereby France will go to the assistance of the Reds "if attacked." The alliance does not hold good if the Reds assume the offensive. So if Hitler can goad the Reds into an offensive move, he may deprive them of their ally.

It would not be as hard as it sounds. The diplomatic wires from Paris have lately carried suspicions that the French do not relish their increasing responsibility as a Russian ally, or, in fact, as an ally of anyone.

You may recall that they dodged out of a somewhat similar situation only recently in the Ethiopian crisis.

## GREED

What Hitler wants with Czechoslovakia may be seen with the naked eye on any map of Europe. The republic is a wedge between Poland and the French-controlled countries of Rumania and Yugoslavia. It has the famous Skoda Munitions Works, largely French-owned. The famous Transylvanian oil fields are within seizing distance of the border, and Hitler needs oil.

The Czechs have Communists. They are ripe for a peaceful penetration program from a major power, having usually been under the dominance of one or another.

## EDUCATION

That French newspaper which accused Bill Bullitt of being a Communist promoter apparently does not keep up with the times. The new American ambassador to Paris was a great promoter for understanding with Russia when he first went to Moscow as ambassador, but it is understood to have changed his mind. His experience in Moscow disillusioned him. He could not negotiate a settlement of the debt, or, in fact, anything else. His pals say he has been damning the Reds bitterly in private.

## HIGHER EDUCATION

Each member of the great plains drouth committee was assigned a special subject on which to report, as a result of the tour of the suffering regions. One was given wind erosion, another water erosion, overgrazing, overfarming, etc. The part assigned to the Columbia University prof-on-leave, Dr. Rexford Guy Tugwell, was—grasshoppers.

## HIGHEST EDUCATION

The announced departure of those hundreds of workers from Dr. Tugwell's Rural Resettlement Administration was only a continuance of the prunings begun voluntarily months ago.

The reason is hard to find but easy to understand. The doctor's own books will show it cost between \$5,000 and \$7,000 a farm to do his resettling in three states of the middle west, if any outsider can ever get a peep at the figures.

## SILHOUETTES

BY RALPH T. JONES.

When things go bad and the world seems wrong, just as in ancient times, I see myself walking in. Before I had time to think I'd thrown away the cigar, he wouldn't see me smoking. I don't smoke in the office, because it's against the rules, but Mister Jay must know I smoke outside. If he was visiting at my home he'd see me smoking and I wouldn't care anything about it. But just because of his during business hours, I get scared and silly. I had just as much right to be in the office as he had. Why do I act that way?

## Might Be Revealing.

It might be revealing for a lot of us if we could read the minds of the other folks who work in our offices. The girls who take our dictation and the boys who run our errands. Might puncture a few balloons of ego. I often wondered how I stand, for instance, in the eyes of the fellows I work with. Not what they'd tell me, if I asked 'em, 'understand, but what they'd say if they didn't know I was there. Maybe it's just as well I don't know, after all.

(Based upon the legends and philosophy found in the Talmud, which work contains the civic and canonical laws and traditions of the Jewish people, dating back as far as 3,000 years.)

QUESTIONS I'VE BEEN ASKED.

What is the oldest religion? According to "The Encyclopedia of Religion and Ethics," edited by James Hastings and published by Scribner's.

Judaism is the oldest existing religion and the parent of two mighty faiths: Mohammedanism and Christianity.

Is the word "hallelujah" from the Hebrew? Yes, it is a Hebrew word meaning "Praise Ye The Lord."

Are Jews permitted to eat oysters? No. Creeping things are not to be eaten. "And every creeping thing that creepeth upon the earth shall not be eaten." Leviticus 11:41. This includes all kinds of worms, the oyster, crab, snail, tortoise, etc.

What is the meaning of Zion? The name Zion originally designated that section of Jerusalem where the temple of David was built.

What Hebrew word means "to be ill" or "amen"? "Omam."

What are the two Jewish holy days that come 10 years apart? Rosh Hashannah (New Year) and Yom Kippur (Day of Atonement).

## FAIR ENOUGH

BY WESTBROOK PEGLER.

## Hutton Back

Resigned to 'Fate.'

Hutton, the financier, sometimes known as old Uncle Tom Hutton, the ex-slave comes back from Europe, where he was living under the name of Simon Legree Roosevelt after looking over conditions in the Old World. That he was I thought, too, when he returned last spring and I think Mr. Hutton will bring back the same sentiment when he comes home. Even though Mr. Hearst has been arching his neck and tossing his mane at fascism for the last year. It doesn't take long for an American slave to discover that the antidote to bolshevism is just as bad as the disease itself and that a monkey is as good as a man under Mussolini and Hitler, the same as in Russia. One fact is as may be confabulatory, as Mr. Hutton sincerely believes, but the dictators of both kinds, Fascist and Communist, confiscate not only a man's money and property, but his manhood and freedom as well. And, if a fellow can hate Roosevelt for nibbling away at the edges of his fortune, what would be the torture of his soul if he suddenly found a lot of arrogant ward leaders telling him to shudder down with special donations, running his business for him and threatening to toss him into Alcatraz for the rest of his life if he let out so much as a plaintive peep?

Courts, hell! There aren't any courts in Italy or Germany now except secret meetings where some lazy lawyer gets up and says, "The prisoner refused to co-operate" and the judge says, "Oh, yeah? Well, he's in here in a concentration camp and grab everything he's got out of his pockets, jewelry, dough, everything the dirty traitor owns. Bring in the next traitor!"

## Easy To Agree

With Uncle Tom.

Roosevelt has tossed away money in his first term not only for sedative purposes but to re-elect himself. The number of useless, shiftless nonentities and incompetents who have been placed in mock jobs as guests of the government on the dole last year was of from \$3,000 to \$10,000 a year exceeds the imagination of the most indignant economic royalist in the land. Jim Farley's first appointment after Herbert Hoover slipped the baton into Roosevelt's eager hand and foot-tied it to the railroad station car. The first train out of Washington was that of a personal backslapper to keep his scrapbook at \$5,000 a year. With that appointment he horned the "A" for the administration. The matter of rewarding deserving Democrats and the boys and girls came a-running from all directions to get to the top.

The other day, Turner Catledge, of the New York Times, had a piece which I believe was excellent. He said that after election Mr. Roosevelt is going to reorganize the government, consolidate bureaus and all such as that, object efficiency and economy. We heard that before, in 1932, but maybe the boss does mean it now because he is very much about his pet ideas, and once he is elected he doesn't have to care about the squawks of the faithful parasites of the Democratic organization because he knows he can grab the thing for a third time. He can dust them off by the thousand because he, personally, will be all washed up after the second term and the new Republican party or go still more into 1940. As Knute Rockne used to say, a football has a funny shape, and the electorate has the same characteristics. Yet, if the boss does go in for a ruthless slaughter of the victims will bleed and scream, but tax slaves like Uncle Tom Hutton and the people themselves, receiving the benefit of the government, might consider another Democrat and four years more of the same.

## Uncle Tom

It is my impression that Uncle Tom Hutton has been a pretty good loser.

In the boom years when people were all more or less in the palm beach set and one of those society husbands who had to dress up like ham actors in a costume party and stuck up with false mustaches, masquerade armor and ostrich feathers and yell "What ho and avant ye!" they felt like damn fools and looked the part, but the ladies, God love 'em, liked it, so what could the husbands do but panic cracked down. But when the panic cracked down, Uncle Tom Hutton quit all the foolishness and ran a free restaurant for the poor and gave away money to the needy and did his best to get out of money and did his best to help.

Later he tried to campaign against Roosevelt, but he decided that every time a man let out a holler against high taxes that made 10,000 votes for Mr. Big.

Now he says that, in spite of the fact that Roosevelt and all, he is going to stick around by contrast with the Greenback, Conn. broker, who announced that he was going to bail out and go to Canada.

Welcome home, Uncle Tom, and may you always find plenty of aid-meat in the cabin.

## Shuns Flirt.

An attractive young widow from New York went to Florida on a man. After registering at a Palm Beach hotel, she sauntered out on the veranda and seated herself near a handsome young man. Her self revealed a desire to become acquainted but the handsome chap in linen was waffled to the ground.

"Oh, I've dropped my handkerchief," she murmured softly.

The handsome young turned a cold, unresponsive eye upon her. "M'am," he said, "my weakness is liquor."

# Crackers Turn Back Pels, 7 to 4, in First Game of Play-Off

**BREAK O'DAY!**  
By Ralph McGill

This farm relief is a great thing. If they had not relieved the Virginia farmer, Luther (Bud) Thomas, in the game last night at Ponce de Leon park, the results might have been serious, as it was, farm relief in the form of Al Williams saved the evening. He plowed under the run crop which those Pelicans had planted.

The Shaughnessy system play-off, which determines which team shall represent the Southern association in the Dixie series with the Texas league winners, finds our brave lads off to their usual winning start.

They have been crippled; they may have been stumbling in the closing games of the season. But last night they were in there swinging.

It was a great game to see, being filled with base hits, great catches and smart fielding. The parade of Pelican pitchers delayed things a bit.

It was a bad night for the Thomas family. Bill Thomas started in the box for the Pelicans and was knocked out of there in the fourth. Our own Bud Thomas lasted until the eighth.

The crowd was a bit disappointing. I trust the fans will not let this happen again. The New Orleans newspapermen were making faces at us last evening and asking what fans wanted here in our town.

So, I'll be seeing you tonight when our nine attempts to make it two straight. The winner must take three of five games.

## MAIL FROM GENE SARAZEN.

Came the mail. And a letter from Pago Pago, in far-away Samoa.

And then another mail and a letter from New Zealand. Both signed by Gene Sarazen, the Little Sardinia.

In the first one he was writing about crossing the equator and of how Miss Helen Hicks, who is along with him and Mrs. Sarazen, was disappointed that there was no visible line to see.

And in the next letter there was the news about arriving and about going to work that same day. And there was a typical Sarazen line:

"These English pounds," he wrote, "may be worth just \$4 each, but they will buy a lot of cow feed in Connecticut."

Cows are his love on the farm he owns. They eat and they give milk. He likes animals that own their own way.

"It's winter over here," he continued, "but it feels like spring or fall in Connecticut. We are having fine crowds to our golf exhibitions. And I'm looking forward to seeing you in the spring."

That means Augusta and the Masters' tournament, of course. The Little Sardinia is the gadfly of golf. He makes news. More than any other golfer of today he is in the newsman's mill. He drives some people white-lipped with anger now and then. But he's news.

Now he and Miss Helen Hicks are on a tour of New Zealand and Australia. And they are making money. Good money. With the exception of one man—Walter Hagen—Gene Sarazen has made more than any other golf professional. He has most of his. The Haig is living for tomorrow.

## FROM PAGO PAGO.

It was that letter from Pago Pago that intrigued me. It was the first mail to come to my desk from that island. And it brought back memories.

Man! I could see Jean Eagles come out on the stage in that flamboyant dress, the high-topped shoes and that floppy hat. And that parasol. And that smile.

I saw her in the play, "Rain," made from that great short story by Somerset Maugham.

There was a play! And there was the gal to act in it, Jean Eagles, with the great beauty and the great smile! Most of that play, the action of it, was laid in Pago Pago.

It was there, in the little store of Old Man Horn, the action took place. And how it rained! I remember leaving the theater that night to come out and stare with unbelieving eyes at clear skies. They had real rain on the stage, and how it roared!

The Reverend Davidson and wife were in that play and I can remember some of the lines yet. They were missionaries to the islands.

"We had to instill into the natives the sense of sin," he said; "they didn't know what it was."

Well, anyhow, it was quite a play. And sometimes now I can think back and hear the rain and the rasping notes of the "Wabash Blues" which Sadie Thompson played on her little old victrola.

And the finish—what a wallop there was! Jean Eagles could act. She and the rain and the lines—they made theatrical history.

And getting a letter from Pago Pago brought it all back, and as soon as I get home again I am going to read the play once more.

## A FAST SCRAMBLE.

Our boys were all closed out yesterday at Garden City in the national amateur golf championship. Tommy Barnes lost in his second round and Charlie Yates was sponged out in the same round. Alvin Everett, the benedict, was defeated in his first round.

The amateur is the madhouse of golf. Every one starts in, making it a sort of battle royal. And some surprising things can happen. Usually there is a wild man or so, playing well above his normal game, who wipes out a handful of favorites.

But form tells. The final round never fails to find a pair of good golfers in there. The scramble, though, is terrific. And the first two days, while the huge and unwieldy field is being cut down, is really terrific. It is much worse than a six-ring circus.

## HOLD YOUR HORSES.

Mr. Tess Bradshaw walked in at the Tech practice field yesterday and took a look at the freshman team in its first day of practice.

"Hold your horses," Mr. Bradshaw told the crowd, "the elephants are coming."

Mr. William Alexander does not like for anything to be written about freshman squads, claiming the publicity does them no good, increasing their sense of importance, and so on.

So I will simply say this, as far as the nude eye is concerned and able to judge, the largest freshman squad, both as to numbers and beef, that Tech has had in years and years. And maybe the largest ever.

It should supply some able bids to the team of 1937. They will come at a very opportune time as most of this year's team will be seniors in 1937.

## PURPLES DRILL FOR 'RED' GAME FRIDAY NIGHT

Better Seating Arrangements Assured Fans; Backfield Duel Seen.

Prep grid fans who saw very little of the Tech High-Erie game last week because of the poor seating arrangement will be afforded plenty of good seats when the Boys' High Purples meet Commercial's Red Raiders at Ponce de Leon park Friday night.

Shorty Doyal, Purple coach, announced yesterday that the gridiron layout will be changed entirely. Instead of the field running from the right field bleachers to the score board, it will be laid out in center field, with one goal situated in front of the left field bleachers and the other in front of the right field bleachers.

It will be a big improvement over the former arrangement. And will afford fans some 6,000 good seats. Then, too, the crowd won't be allowed down on the sidelines, as they were in the Tech High-Erie game.

They will be seated in the left field bleachers, the negro grandstand, the center field bleachers and the regular grandstand. As the gridiron will be in center field just back of second base, every one will have a good view.

Demand for tickets to the game, according to Doyal is the greatest in quite a while. And there's a lot of spirit around Boys' High. The school will hold a pep meeting this morning with the entire student body attending.

In McDuffie, Sabo, Orenstein and Gorie, the Purples have a backfield quartet that excels even the pickin' totter that galloped the team to a southern championship last year. And Commercial is reputed to have backs almost equal to those of the Hurricane.

Coach Doyal is losing sleep every night on account of his line. He has five lettermen back on the forward wall, but they are not giving him any cause for joy.

The end positions seem doubtful at present. And the outlook at center isn't at all bright. Doyal hasn't decided whether he'll start Wynn or Sheldon at center. He's counting on Wiley and Conger at ends, however.

Louie Peterson, captain, is the only real star in the Purple forward wall. He's a battler.

The Hurricane continues its rough work again today. The boys will have a light drill Thursday. And then be ready to go Friday night.

In the meantime the Red Raiders are working hard under the eyes of Rufus Golden. They are expecting to put a bid on Boys' High's record, which has been free of defeats for the last two years.

**Smithies Take Light Drill Today.**

Tech High's Smithies take a light workout this afternoon and depart tomorrow morning for Savannah, where they will meet the Blue Jackets Friday night.

They ended the rough work yesterday with a long, hard scrimmage.

The Savannah game is the key contest on the Smithies schedule. If they get by the game with the Blue Jackets, the Tech High lads will be right in the running for the G. I. A. title.

**Marist Works For Opening Game.**

Faced with the task of almost completely rebuilding his 1935 team, Coach Louie Van Houten, Marist coach, is busily at work preparing last year's reserves and his new-comers for the Cadets' opening game, a Sunday afternoon affair with the Notre Dame eleven of Chattanooga.

Offensive hopes will rest on Heyward Tyson, a fleet halfback. Tyson is a track star as well as an ace grid performer, running the 100 yards in 19 seconds.

**Russell, G. M. A. Drill for Battle.**

Russell High and G. M. A. East Point and College Park athletic rivals, will open their football campaign with the two meet on Russell's field Friday afternoon.

W. A. Bowen, coach of the Wildcats, believes that his charges are much further advanced with the work than any team he has ever coached. He attributes the rapid advancement to the long and strenuous spring training sessions.

Perry Johnson, guard on the 1935 team, was elected captain of the Wildcats at the Tuesday practice session. Line mainstays of the Cadets are: Rutledge, Roberts and Tennell at ends; Tucker, Rogers, Nichols, Marwick and Ansley at tackles; Bell at guard; and Alken and Wagner at center.

Backfield hopes rest on Jack Davis and Jack Bowright at half-back posts; Bill Miller and Ned Farber at fullback, while Ed Anderson will run the team from quarterback.

The line will average 160, with the backfield 150.

Over in the G. M. A. camp, Coach Bud Harris is working overtime trying to mold an eleven with only Johnny Bole, specially little pitcher, returning from last season's eleven.

To make matters worse, only 19 men reported for Monday's practice.

**Eden Upsets Fuss In Newspaper Meet**

C. R. Eden pulled the big upset in the newspaper golf tournament yesterday at East Lake when he eliminated Roy Fuss, the medalist and former champion, 4 and 3. Ed Miles rallied to beat Gus Butler, 1 up, in another all-Journal match. Miles, who was five down on the first six holes.

L. D. Young, of the Journal, defeated Gene Hinton, Constitution, one up at 19 holes.

No matches are scheduled today. The second round will be played Thursday.

**CHAMPIONSHIP FLIGHT.**  
Bill Jones defeated Bruce Garwood, 6 and 4.  
L. B. Williams beat R. Bond, 5 and 4.  
Roby Robinson defeated J. K. Otley, 6 and 3.

**SECOND FLIGHT.**  
R. Hutchinson beat E. F. Hoskins, 5 and 4.  
H. L. Self beat J. J. Conlin, 2 and 1.  
E. Morris beat L. Hoskins, 6 and 3.

**THIRD FLIGHT.**  
Ray Walker defeated E. Bellamy, 5 and 3.  
S. W. King lost to J. Coleman, 6 and 5.  
Kenneth Granger defeated Ben Meyer, 4 and 2.

**FOURTH FLIGHT.**  
J. M. Smith defeated F. Shelton, 9 and 7.  
Kassner beat E. H. Murray, 2 and 1.  
T. J. Smith beat George Stone, 2 and 1.

**FIFTH FLIGHT.**  
R. Doble defeated B. Ebert, 9 and 7.  
N. M. Moore fought on a bye.  
C. Barb won from J. McCormick, 2 and 1.  
F. Boggs beat Dixon Ball, 1 and 0.

## NIGHT PRACTICE MAKES ITS BOW AT TECH FLATS

Alex Favors Daytime Drills; Konemann, Edwards Show Up Well.

By Morris Siegel.

Night football practices may have its advantages over the regular day-light sessions, but in Coach William Alexander, generalissimo of the Georgia Tech forces, the afternoon drills have a warm admirer.

Tech's Jackets, who are expected to have more sting in them than any team since the famous 1928 national championship outfit, held their first practice under the lights of Rose Bowl field last night, a brief drill lasting only one hour and 15 minutes.

The time was divided between tedious setting-up exercises under the supervision of John Wilcox, a brief punting drill, tackling session, and offensive and defensive scrimmage for the varsity gridmen. Which may give one an idea of what the Alexander Man can accomplish in so short a time.

Marion "Koon" Konemann, the "Flying Dutchman" who is expected to bear the brunt of the Tornado offense, and Ed Thorpe, substitute fullback, delighted the gathered assembly with several long runs.

Mit Fitzsimmons, captain of the re-born Golden Tornado, was in practice in uniform, but took no part in the heavy work. "Fitz" expects to be back in harness about Thursday, having been temporarily shelved with a knee injury.

Alexander announced that his charge will be put through their regular paces this afternoon and the next night drill would be held next Thursday night, the night before the opening tussle with Presbyterian's Blue Stockings.

Sixty-six aspirants for the Georgia Tech freshman eleven reported to Coach Roy McArthur yesterday afternoon. The "rats" were issued uniforms and were subjected to light conditioning drills for the remainder of the week. McArthur hopes to have his cohorts ready for skirmishes with the varsity by next week.

**WARREN IS HELD HITLESS, RUNLESS**

CHICAGO, Ill., Sept. 15.—Milwaukee's state champions eliminated Warren Company, Georgia champions, 1 to 0, here this afternoon in the quarter-final round of the national softball championship tournament on Soldiers' field.

Speedy Kaczmarek pitched the only perfect game of the tourney in sending the Georgia boys home without a hit. He did not give up a single hit, nor a Warren player reached first base, and only 21 players went to the plate in a short series.

Warren entered the quarter-final round with a 4-to-1 victory over the Shenkel Chevrolet team from Waterloo, Iowa, this morning.

**Petrels Look Dull To Coach Patrick**

Oglethorpe's Petrels are going through daily scrimmages with the freshmen. The play of the team has shown slight improvement in the last few days. There are not progressing nearly as fast as Coach Patrick has expected.

The team has looked only fair on offense against the freshmen team and today when it went to the deck for the first time Patrick was not pleased with this department either.

Yesterday was spent on pass offense and defense. Buck Thomas and Jack Puryear are the passers and Oglethorpe seems well fortified in this department.

**Just a Few Baseball Notes From Pelican-Cracker Game**

By Ralph McGill.

In the event you unwisely neglected to come out to the game at Ponce de Leon park last night as the Pels met our lads, these little items may interest you.

In the first place the crowd was not as large as it should have been. To one used to fighting to get in, it was embarrassing to be able to come through the gates without only a medium of shoving. Please see this doesn't occur again. I like to be shoved around by baseball crowds.

In the second place you should have been there to see Uncle Luther Thomas, the Virginia dirt farmer, strike out Eddie Rose with one on base and McCormick and Connolly, the latter for the third out.

And to see that first-eating Frenchman, Pierre Emil Mailho, do the slide for life in the first as the Crackers scored. He came from first on Hooks' double and hit the dirt for home with a long, long slide, for in the fifth, Irwin didn't throw in the relay. The crowd liked that slide.

And that was nothing—really—to what happened in the third. Two on by the generosity of the dirt farmer, who was as wild as a Virginia rebel, he came right back to make Gleeson pop out and then strike out McCormick and Connolly. The latter is the most dangerous man in the league when those ducks are on the pond.

The Thomas clan had all the pitching chores until the fifth. Both had been wobbling badly. But in the fifth, Bill Thomas went out of there after a batting barrage had netted the

Crackers two runs. He was followed by Tom Reis, which is pronounced to rhyme with George Hangeras' native country of Greece. He won 20 and lost 9 for Zanesville this year.

Tommy Irwin looked askance at Alex Hooks in the fifth. He bunted and Jim Galvin grabbed the ball. His throw to Hooks was outside the foul line and about on the instep of the Cracker first baseman. He picked it out of the air in time to nip Irwin. It was robbery. Without an argument.

Those Crackers got rid of Reis in the seventh. Hill, Hamel and Mailho all got hits and Browne a base on balls. It all made Reis lonesome for Zanesville. He looked very good before that inning and may be heard from next year.

They had Gleeson backed up against the wall so much that inning he all but wore the paint off the signs. It was in that inning the game was put on ice.

Henry Helf hoisted one into the left field grandstand in the seventh. He was the first batter up in that inning. The Pelicans put on a rally, getting in two more runs and putting themselves back into the game. The home run was inspiration.

Then came Winegarner, whose arm had been sore for some weeks. It still wasn't well. The Crackers got going again on him.

It was very fine entertainment—lots of banging of the baseball. And tonight should be even better.

## Leads Cracker Attack

Johnny Hill turned in several great stops and throws last night as the Crackers defeated New Orleans, 7 to 4, in the first game of the play-off series. In addition, Johnny merely got three hits, one a double, batted in two runs, and scored two himself.

## 'Shaughnessy System Revives Interest'—Gilbert

Pelican Pilot Puts In Strong Boost for Play-Off Plan.

By Jack Troy.

A boost for the Shaughnessy play-off system, backed by sound reasoning, was advanced last night by Manager Larry Gilbert, of those Pelicans.

Without the play-off system, the Southern league race would have been a dead issue on August 15, last, Gilbert pointed out. Atlanta at that time had a lead of virtually 10 games. The pennant race was no race.

And so the interest of the fans was kept up by the fact that the other clubs finishing in the first division would get a chance to compete for the right to play the Texas league winner in the Dixie Series.

This hole is No. 4. There will be three balls driven to this hole from the tee, par being conceded and counted in the score for par prize.

Chick Autry took over the club and was doing a good job of catching and managing when he sustained a split finger. Then Eddie Rose, left fielder, and Tom Irwin, shortstop, came up with the injuries. They were out for a goodly spell.

As a sort of climax to all this early misfortune, Roy Weatherly, crack outfielder, was struck on the arm by a pitched ball at Chattanooga. The arm was broken.

Gilbert recovered from his illness and rejoined the club. He was with the club when Weatherly was hurt.

The Pelicans put on their annual stretch drive. There was a great 16-game winning streak. And with the streak in full stride, Ralph Winegarner, first baseman, came up with an

## ALMON WILLIAMS SENT TO RESCUE OF 'BUD' THOMAS

Johnny Hill's Batting and Fielding Are Big Feature.

By Jack Troy.

The champion Crackers rallied behind the fine pitching of Luther Thomas and Almon Williams last night to win the opening game of the Shaughnessy play-off from the pesky Pelicans, 7 to 4, before a crowd of 4,814 cheering fans at Ponce de Leon park.

Bud Thomas, a trifle unsteady, got himself in the hole in the first three innings and each time came out of it with a great exhibition of pitching in the pinch.

And finally, in the seventh, Hank Helf's home run, an error and singles by Irwin and Rose caused Manager Moore to send Al Williams in as relief. The Crackers had a lead of 6 to 3 at the time. But there were two men on and nobody out.

Williams, who clinched the pennant for the Crackers on the last road trip in New Orleans, hurling a one-hit game in the seven-inning finale of a double-header, bore out the strategy. Joe Pels scored one more run on a freer's choice as Williams got the side out.

**DOUBLE PLAY.**  
The Pels threatened no more. Bud Connolly led off with a single in the eighth, but Ernie Smith bounced to Williams, who promptly shot the ball to Chatham, forcing Connolly. Chatham then flicked the ball to Hooks, completing the double play.

In the ninth, there was a great stop and throw by Johnny Hill, one of several great plays the Douglassville third sacker contributed to the cause. Chatham threw out the first batter, Ralph Winegarner. Hill took care of Tommy Irwin and Rose called to Al Browne to end the game.

Manager Larry Gilbert used four pitchers in an effort to stop the Crackers. Gilbert led off with Bill Thomas, who was most effective until the fourth.

The Crackers had opened with a score in the first inning. Pack Hamel walked and was forced by Emil Mailho, who returned to the lineup with his injured ankle tightly strapped. Alex Hooks slashed a double to left center on which Tommy Henrich made a great recovery, scoring Mailho from first.

**GREAT SLIDE.**  
Mailho really trucked around the bases, injured ankle or not, and made a great slide at home.

The Pelicans evened it up in the second. Connolly rapped a double to left and scored on Smith's single.

The Crackers then got to Bill Thomas in the fourth. Nig Lipscomb singled and Jim Galvin sacrificed. Johnny Hill, who led the attack, driving in two runs and scoring two himself, ended a single center, sending Lipscomb across. Buster Chatham beat out a hit to third base, Hill stopping at second. Browne singled to center, scoring Hill and sending Chatham to third.

**REIS TO RESCUE.**  
Bill Thomas was relieved by Tom Reis. Continued in Second Sports Page.

## FOR THE BEATEN ONE UP 20 HOLES, AFTER RALLYING

Many Favorites Go by Wayside During the Day.

**By Alan Gould.**  
GARDEN CITY, N. Y., Sept. 15.—(AP)—A tidal wave of upsets, brought on by the warty water, and the tendency of all comers to claim the freedom of this historic golfing port, swept over the United States amateur championship today, leaving in its wake the wreckage of a flock of title hopes.

In the drizzling rain that dampened the process of reducing the field to 64 contestants for the third round, British, Canadian and American players were washed right out of the picture with startling rapidity.

The succession of form reversals began with the elimination of Hector Thomson, Scotland's holder of the British amateur crown, by Hank Kowal, former Colgate University golf captain, by the action of the 4 and 2. It reached dramatic heights with the downfall of the Texas star, Reynolds Smith, before the sharp-shooting comebacker second round, the 24-year-old Syracuse (N. Y.) automobile salesman.

Holt dealt the crusher to the diminutive Smith, a great birdie four on the 17th hole.

**SUB-PAR ROUND.**

Holt shot the best last nine of the tournament thus far, a sub-par 35, beat Smith and, by a strange trick of the draw, thereby qualified to meet his touring birdie, Thompson, in tomorrow's third round. The Syracuse sub-par 36 for the outgoing nine, rallied superbly to square the match on the 14th, with a six-foot putt for a birdie three, take the lead for the first time with a 12-footer for a birdie four on No. 7, where Smith three-putted, and then saved his score up margin by playing the short 18th, over the lake, perfectly.

The day's shocking upheaval trapped foreign and home-bred talent with complete impartiality. Two veteran invaders, Canada's five-time champion, Ross (Stanley) Somerville, and Dr. William Tweedie, captain of the British Walker cup forces and a former British amateur title, were twin victims of form reversals. Somerville's Walter Emery, 1935 runner-up, and Lawson Little, and Atlanta's Charlie Yates, a former western amateur champion, were eliminated aside in the debacle of a former.

**SOMERVILLE BEATEN.**  
Somerville, who won the United States championship four years ago, was eliminated by 20-year-old David L. Davis, University of Texas, making his first national tournament start.

After his dismal play the day before, when he barely survived the first round, the slumped Davis, runner-up last year for the Canadian title, was no great surprise.

Yates, waging a valiant extra-hole match in as many days, passed out at the hands of a southern rival, Judd Brumley, 42-year-old Greenville, Tenn., hotel owner, in a 20-hole battle. Never in the lead, Yates squared the match for the fourth time on the 15th hole. They shot par golf for the next four holes, including the 19th, but Brumley applied the finishing touch by sinking a six-footer for a birdie deuce on the second extra hole.

On behalf of the old guard, 46-year-old Chick Evans, of Chicago, struck a comeback bluff by finishing strong to outsharpshoot Rodney Bliss Jr., Omaha's former runner-up, in a one-up triumph over Johnny Morris, of Woodward, Ala.

Two former titleholders succumbed to the generally false pace. Jesse Guilford, the one-time Boston "cage gun," was spiked by Omaha's Johnny Goodman, 4 and 3. Jess Sweetser, who has held both British and American amateur crowns, was ousted by the 24-year-old right-hander from Kansas City, Walter Blevins.

Goodman was joined by two of his Walker cup mates, John J. Egan, of Cincinnati, and Albert Campbell, of Seattle, in defying the day's threatening trend. All three scored decisive triumphs. Campbell started an 8-10 tie choice with Goodman, struck his stride for the first time. The Seattle Scot shot down Jack Routh, of Bethlehem, Pa.

Fischer, even par for the 27 holes he has played in two matches, put a fellow Ohioan, Carlin Short, of Akron, 5 and 4, in an accurate shothacking exhibition. Tom Fisher tackled Chick Evans in one of the third round's most interesting pairings.

**BRITISH SURVIVORS.**  
Chief survivor among the five Britons left in the tournament was Jack McLean, a Scottish star, who won his second-round match over a London golf-writing rival, Henry Leachurst, 5 and 4. The other four winners from overseas included John Ewing and P. B. Lucas. All except Lucas played on the Walker cup team.

PLAY-OFF SYSTEM**

Continued From First Sports Page.

Injured left shoulder, he was unable to raise his arm high enough to catch a ball and was forced to leave the lineup.

**CREDIT TO GILBERT.**  
Oh, yes, other clubs have had their troubles. But it is a great credit to the managing of Larry Gilbert that he brought the Pels through to a first division berth.

Things looked awfully dark for New Orleans, which has been out of the first division only twice in 23 years. But Larry Gilbert came through, as he always does. He's a real credit to the game, is Larry Gilbert, and, with a few more wins, he'll be a great credit to the city.

McGregor Keefe, New Orleans newspaperman, is with the team. It's their first trip to the season to Atlanta and they're looking forward to a great series. They figure it's fifty-fifty, even with Winger and Peltin out of action.

## Charlie Yates' Loss Was Biggest Upset

By Dorothy Kirby

GARDEN CITY GOLF CLUB, GARDEN CITY, LONG ISLAND, New York, Sept. 15.—It was raining during the first part this morning and it looked as if the players would have to stop around in the rain but it cleared up later in the day although the sun shined under and it was rather chilly. The wind blows here just as I imagine it does on the courses in England.

Speaking of England, the new British champ, Hector Thomson, who looked so good in the practice rounds, lost his match today. Francis Ouimet, captain of the Walker cup team, drew a bye for Monday's play but won his match today.

It looked as if all the matches were going to the 18th green. A bunch of the favorites went out today. Reynolds Smith, Walter Emery, the Walker cup star, Hector Thomson and Charlie Yates.

Tommy Barnes lost his match on the 18th and his opponent, J. F. Riddell Jr., who was playing over his home course, drove over the 18th green into a trap while Tommy didn't quite make the fairway. His ball was short on the edge of the small lake in front of the green but they both wound up with fives so Riddell, having been out going to the clubhouse, squared the match at the 16th hole.

The biggest upset of the day was Charlie Yates getting beat by Judd Brumley, from Knoxville. This was some match. It went to the 20th hole and Brumley sank a deuce after Charlie had sunk a pretty putt for a par three.

This Garden City course is one of the hardest I have ever seen and from what I hear it's the hardest course that a lot of other people have seen. The amateur has been played three times on this course before. It's very tricky with narrow fairways and the greens are just like greased lightning.

Since Charlie is out of it I pick Johnny Goodman to go through and take home the silver. There's a hard grind ahead of the winner with two matches Wednesday, two Thursday, a 36-hole match Friday and the final, which is 36 holes, Saturday, and that's a mess of golf. Before the big upset happened, it went out to Judd Brumley, who was the 28th hole and Brumley sank a deuce after Charlie had sunk a pretty putt for a par three.

It looked well but I will probably change my mind about it before I have played nine holes.

## Mauldin Says Leonard Best Hurler in League

Atlanta Boy Expects to Join Luke Appling in White Sox Lineup Next Season.

By Thad Holt.

The future center fielder of the Chicago White Sox walked into the office yesterday. Marshall Mauldin, an old-timer ball player—one of those modern rarities who know how to fight for base hits, to bunt and slide head-first without breaking a bone—is home from a grand season with the Knoxville Smokies.

"I've been a big leaguer for two winters now," grinned Marshall, "but when spring comes to me, they send me back to the minors."

**JUST A GLANCE.**

Mauldin, a most likable young man, admitted that the look manager Jimmy Dykes took at him last spring was brief. He thinks his 1936 record will be productive of a more thorough trial. "I believe I'll convince them I belong there this time," he said.

"Atlanta boy, who if he makes good at Chicago next year will join the Sox," introduced an interesting slant on his head-first slide. He is the only player in the league who uses it. "I see," said Mauldin, "but the umpires are more willing to give a daring baserunner the edge on close plays. That has been my experience. It seems to me that the umpires have had decisions called my way that were—well, doubtful."

Marshall said he had never been injured, which he believes, which enables him to beat orthodox baserunners, with his speed, by an important foot or more.

**FASTER THAN TEXAS.**  
Mauldin ran the Southern league as a fast circuit—faster than the Texas league. He played a month at Dallas in 1935 after coming up from the minor leagues. He broke into pro ball at Lafayette, La., of the Evangeline league, in 1934 as a third baseman, and has since been a regular.

We thought Mauldin had a wonderful arm, we informed him, and that produced a laugh from the 167-pounder. "I remember when I was a third baseman I convinced my manager I was a good outfielder by tossing one mile over first base into the grandstand."

Mauldin thinks the Southern league is still a rather large number of high hitting players. "There are some tough old pitchers in this league," he said. "And some tough young ones, too. I've pitched 217 hits, second highest of the year."

**LEONARD BEST.**  
Mauldin didn't hesitate when asked who he thought was the top pitcher in the league. "Leonard," he said. "He's great and I think he'll turn up the National league next year."

The Knoxville star also spoke highly of Bud Thomas and Al Williams, predicting major league careers for both.

Marshall Reese Mauldin will be 22 next month. He may play a little basketball here this winter and won't turn down a job, he says. Strange to say, he wasn't saddened by the news that Rogers Hornsby, of the hapless Browns, was interested in him. "After all," he said, "a big league job is a big league job."

**Taylor and Jordan  
In Return Match**

The promoters at Riverside arena last week who had a complete sellout 15 minutes before the first match started, state that this week's card will be better than the matches presented last Friday.

Miss Mary Nelson, the lady grappler from Birmingham, who had to have a substitute take her place at the last minute, will meet Miss Frances Gomez, winner last week. Miss Nelson was at the ringside and upon orders of her dentist, who had extracted a tooth the same day, prevented her mat appearance. She challenged the winner for this week's match.

Ted Taylor, the Mississippi log roller, and one of the toughest wrestlers ever to come here, will meet Tarzan Jordan, Atlanta favorite in a return match.

It will be remembered that their last meeting was nip and tuck. Jordan tried to meet his opponent in a scientific manner, but this was impossible with this rough opponent. Both wrestlers were outside the ring fighting during the last fall, when Jordan beat his opponent back to the ring and was awarded the match.

Tiger Lou, the Florida sensation, will tackle Chippewa Charlie, Indian grappler, during the opening match. The promoters announce an additional 500 seats have been added to the arena.

An opening event is being arranged.

Speer has never appeared as a wrestler on any of his shows, although he has been performing almost weekly in other cities. Frank proved he could easily hold his own with Raines at the rough stuff in their recent match and should be able to go in there with the villain, a great match is assured.

Meanwhile, Speer is working on the supporting material to the main event. He has signed Tiny Hewitt, Memphis veteran, who has been absent from local rings for a year or more, to meet Jack Thomas, the likeable Australian, in the semi-final.

## YANKS' LOSS Was Biggest Upset AT SEVEN TILTS

Senators Take Double-Header From Browns, 13-7 and 6-1.

CHICAGO, Sept. 15.—(AP)—The New York Yankees, seeking to create an all-time American league record for a pennant-winner's lead over the rest of the pack, shot 18 1-2 games in front again today by clubbing the White Sox, 13-7.

The victory stopped the seven-game winning streak of the Sox, but did not drop them from second place in the loop.

Schoolboy Rowe chalked up his 18th pitching victory of the season as the Tigers came from behind with a six-run spurge in the fourth inning to clinch an 8-0 decision over the Athletics.

Although touched for 11 hits, the same number his Detroit mates collected, Rowe was only in danger in the first inning when Johnnie's 20th homer featured a two-run attack. Pinky Higgins hit his 13th four-bagger in the fourth.

With the aid of Homers Nos. 29 and 40 by Frank Thomas, the Indians won the first game of a double-header, 6-1.

Trosky was the individual standout, driving in seven runs and getting four hits in four official times at bat. His homer in the sixth scored three runs; another in the eighth accounted for two more, and a double and a single brought in another pair.

Allen pitched nicely during his stay on the mound, although he had to be relieved in the fifth because of a right arm strain.

Harland Clift's 20th home run of the season drove Earl Whitehill from the mound in the seventh inning, but the Washington Senators had built up a formidable lead and were able to defeat the St. Louis Browns, 13-7, in the first game of a double-header.

The Senators won the second game, 6-1.

## STROKE TAKES LIFE OF CLAUDE STOVER

Veteran Railroad Engineer Dies at Home; Rites Set for Today.

Claude Stover, 68, veteran engineer of the N. C. & St. L. railroad, died yesterday at the residence, 1170 Boulevard, N. E., after a brief illness.

Mr. Stover, an employee of the railroad for 45 years, was stricken with a heart attack Monday afternoon, after returning home from work.

He came here as a boy from Carversville. He was a member of the Brotherhood of Locomotive Engineers, Local No. 207, and active in the Grace Methodist church.

He is survived by his wife, and five brothers, R. L. and J. P. Stover, both of Atlanta; James N. Stover, of Chicago; Ed Stover, of New York; and Charles B. Stover, of Jacksonville.

Final rites will be held at 1:30 o'clock this afternoon at the Spring Hill chapel of H. M. Patterson & Son, with Dr. W. A. Shelton officiating.

## ATLANTANS' KINSMAN KILLED IN ARKANSAS

T. L. Bellingrath, 37, of Little Rock, manager of the Coca-Cola Bot-

ling Company of Arkansas, one of three persons killed yesterday in an automobile accident near Beebe, Ark., was a relative of several Atlantans.

Two others were killed in the accident yesterday.

Martine Harmsen, of Atlanta, and A. P. Bellingrath, of Decatur, are relatives of Mr. Bellingrath. He was a son of Theodore Bellingrath, a grandson of Leonard Bellingrath, pioneer Atlanta citizen. He was a relative of the prominent Bellingrath family of Alabama.

## MOORE ATTACKER IS FOUND GUILTY

R. M. Darnell Sentenced to Serve From Two to Three Years.

R. M. Darnell, World War veteran, was found guilty of assault with intent to murder W. F. Moore, Atlanta lawyer, yesterday in Fulton superior court after a two-day trial. Judge G. H. Howard sentenced him to serve from two to three years.

Darnell claimed he found Moore in his room. Moore testified he was there on legal business with Mrs. Darnell, and that Darnell attacked him with a razor and ice pick without provocation. Assistant Solicitor Quincey Arnold prosecuted Darnell. The attack occurred July 4.

## TAYLOR DEATH LAID TO SELF-POISONING

Man Who Ended Own Life After Wife Died Will Rest Beside Her.

A verdict of death from "self-administered poisoning" was returned by Coroner Paul B. Donehue, following an inquest at 11 o'clock yesterday morning into the death of Edward D. (Mike) Taylor, 47, who ended his life Monday rather than live without his wife, who died last Friday.

The body of Taylor was found in the front seat of his automobile, his head wrapped in a blanket, in the garage in the rear of his home at 137 Georgia avenue, S. W., about a half hour after the funeral of his wife had been delayed because of his absence.

Double funeral services for the couple, who had been married 17 years, will be held at 10 o'clock this morning at the chapel of Harry G. Poole, with the Rev. J. R. Perkins officiating.

Burial will be in Magnolia cemetery, in accordance with the wish of Taylor, who, in a pencilled note found in the car, asked a friend, Ralph W. Sharpe, to "attend to having father's grave moved so I can be buried by Jesse."

## AMENDMENTS HIT BY DEKALB JURY

Limitation, Lieutenant Governor and 4-Year Term Plans Opposed.

The DeKalb county grand jury yesterday recommended the defeat of three proposed constitutional amendments to be voted on in the November general election.

The grand jury charged that the proposed amendment for tax limitation "has buried in its text many grants of power which would be opposed by the majority of voters if they knew of their existence."

The proposal to create the office of lieutenant governor of Georgia also was frowned upon by the jury, which said there is no need for that office and that its creation would merely result in additional expense to the state.

The amendment calling for a four-year term for the Governor was opposed on the ground that, should the people elect a man who, although a poor choice, is not subject to impeachment, the mistake now can be rectified at the end of two years.

## CITY ISSUES WARNING ON PAYMENT OF TAXES

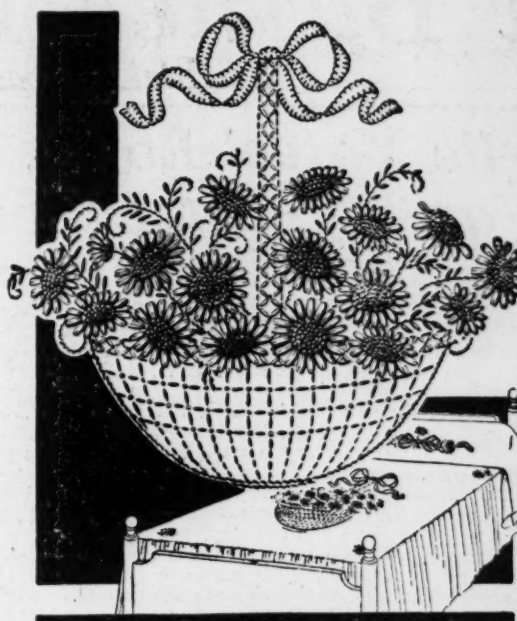

City tax assessors yesterday urged Atlantans to pay their taxes promptly and avoid additional cost.

The final installment for the year are due between September 1 and October 15. Failure to pay within the time limit will subject citizens to a 10 per cent interest charge on the balance due, in addition, a charge of 7 per cent interest for unpaid balances.

## 'Flu' Vaccine That Works Holds Promise of Ending Big Epidemics

CAMBRIDGE, Mass., Sept. 15.—(AP)—The end of great "flu" epidemics was forecast today at the Harvard tercentenary through a new vaccine which is being quietly developed in two of the world's foremost medical institutions, one American, the other English.

It is made from living virus, the sub-microscopic "agent" which causes flu epidemics. At Rockefeller Institute, New York city, the vaccine is already in human use with every evidence of effective prevention.

At the National Institute of Medical Research, Hampstead, England, a vaccine, made by a slightly different method, shows superimmunizing effects on animals.

The discoveries were reported at the Harvard tercentenary by William G. Smillie, M. D., professor of public health administration at Harvard.

The flu vaccine at Rockefeller Institute is a culture of virus taken directly from human influenza patients. Flu is believed to attack through the nose. Human beings vaccinated were not afterward exposed to flu. They were not, however, made ill by the vaccine and their blood revealed immunizing substances.

The English vaccine is made by inoculating animals with the virus and taking the vaccine from the animals. The English "hyper-immune" product, Dr. Smillie said, is so potent it mitigates the effects of flu in mice even 72 hours after they have been infected with the disease.

The "epidemic influenza" for which the new vaccine is made, said Dr. Smillie, is a different disease than sporadic cases of flu.

## POLICE OFFICER'S SON PASSES AT RESIDENCE

Alfred H. Ginn, three-month-old son of Lieutenant E. W. Ginn, veteran Atlanta police officer, and Mrs. Ginn, died yesterday at the residence, 401 Georgia avenue, S. E., following a brief illness.

Besides his parents, the child is survived by a sister, Madeline Ginn; two brothers, Jack and Carlyle Ginn; and grandparents, Mr. and Mrs. J. F. Martin and Mr. and Mrs. P. H. Ginn.

Lieutenant Ginn is in charge of police radio cars.

Final rites will be held at 11 o'clock this morning at the graveside in Greenwood cemetery, with the Rev. Luther Bridges officiating, and J. Austin Dillon in charge.

## IMPROVEMENT NOTED IN MARINE TRANSPORT

NEW YORK, Sept. 15.—(AP)—Marine transport is much safer than in pre-war days, speakers told the international meeting of naval architects and marine engineers today.

Since 1913 there have been only five sea disasters from fire in which lives were lost, said E. Leslie Champness, managing director of the Palmers Harbours Company, British shipyard.

He said that existing standards of safety at sea, from the standpoint of fire, are higher than on land.

James Montgomery, chief ship surveyor of Lloyd's register of shipping, presented a table of fires on vessels reported from March 1, 1930, to February 28, 1931, showing that half of the reported fires occurred at dock.

## TALMADGE CONTROLS PENSION AMENDMENT

Makes Up Ballot; Rivers Pushing Drive To Force Issue.

By GLENN RAMSEY, Associated Press Staff Writer.

It's directly up to Governor Talmadge whether the old-age pension constitutional amendment goes on the general election ballot in Georgia November 3.

Secretary of State John B. Wilson said yesterday that all amendments passed by the 1935 general assembly had been certified to the Governor's office some time ago.

That ends his job, Wilson said. Speaker E. E. Rivers, nominated for governor in the September 9 Democratic primary, who campaigned specifically on free school books and old-age pensions, said yesterday that friends of the pension movement would have it advertised as required by law and then seek to get it on the ballot.

Proceedings seeking to force state officials to put the amendment on the ballot still are pending in the state supreme court.

Governor Talmadge has made no comment about the amendment since the primary.

The governor, under the law, makes up the official ballot for the general election and certifies what goes on it.

## DECISION DELAYED ON DELINSKI PLEA

Boykin Appears Before Prison Commission To Oppose Man's Release.

The Georgia Prison Commission yesterday delayed a decision on the parole application of William R. Delinski, convicted kidnaper of John K. Otley, Atlanta banker, pending further study of the records in the case.

At the hearing yesterday, Solicitor General John A. Boykin appeared for what he said was his first time to prevent the pardon or the parole of a kidnaper.

After reviewing the case, the solicitor general urged a full penalty in the case of Delinski to serve as a lesson to would-be kidnappers.

Appearing also was Delinski's mother, who contended her son had been punished sufficiently and that he should be paroled and given an opportunity to become a good citizen.

It is expected that the commission will announce its decision in several days.

## U. S. REPORT SHOWS GAIN IN LIVING COST

WASHINGTON, Sept. 15.—(AP)—The Labor Department reported today that the cost of living for wage earners and non-salaried workers advanced 1.7 per cent from April 15 to July 15 in 32 large cities.

Living costs, the department found, were 10.1 per cent above their depression low point in June, 1933, but 17.2 per cent less than they were in June, 1929.

The advance over July 15, 1935, was 2 per cent.

## Author of 'Gone With the Wind' Has No Suggestion in Choice of Cast

By Sally Forth.

ALTHOUGH Margaret Mitchell is being deluged with letters suggesting that certain moving picture stars be cast for the roles of Scarlett O'Hara, Rhett Butler, Ashley Wilkes and Melanie in the moving picture production of "Gone With the Wind," the famous author says she has nothing to do with the matter. When she sold the rights to her monumental literary success to Selznick International Pictures, Inc., at a price exceeding \$54,000, Margaret renounced her privilege to make suggestions relative to the choice of actors for the cinema.

The producers have invited Margaret to Hollywood to consult with them previous to the production of the screen version, but she has turned a deaf ear to their pleas, as she considers her collaboration would prove futile. The strain of writing her spectacular novel, "Gone With the Wind," has proven injurious to the author's health as well as her vision. Margaret has been forced to spend several weeks in a dark room to obliterate strong light from her expressive blue-gray eyes, that are fringed with long black lashes.

Nationally-known critics contend that "Gone With the Wind" far surpasses "Anthony Adverse," the tome authored by Hervey Allen, and which held such high favor and first place in the "best sellers" list, until the superb novel about the Civil War and reconstruction days, written by Margaret Mitchell, came off the press last June. Although modest and retiring Margaret would disclaim any possibility of such an idea, her friends unhesitatingly declare that "Gone With the Wind" is slated for the Pulitzer prize, because it ranks with the greatest literary achievements of the last decade.

SALLY in a jovial mood passes along the latest story on Miss Mitchell's famous book. The method of approach is to dash up to a friend and ask, "Have you heard about the latest epidemic that's sweeping the country like the wind?" "No," is generally the answer.

Afterward the energetic jokester crashes through with the climactic "Why, Scarlett fever, of course!"

A one-book lending library instituted by an Atlanta girl of Sally's acquaintance is the latest innovation to the "Gone With the Wind" fever. The young belle rents the book to friends for a small sum by the week and receives orders far in advance.

NEWS is the ever source of interest for Sally Forth, and today there is a new angle to the definition of the "man bites dog" theory. So when a man gives a dinner party for a bride-elect, it's not news, but when he is the only man present, then it is news.

In this incident it is George W. Davis, whom Sally thinks is a very brave man. So brave, in fact, that he rightfully deserves mention here. Mr. Davis gave a party last evening complimenting Jacquelyn Gordy, who will become the bride of Dr. Darden J. Eure, of Morehead City, N. C., this month. That he honored the lovely young bride-elect was of interest, but Mr. Davis soon found himself very much honored himself, not only as host, but also as the only man present. His guests were Jacquelyn Gordy, Gladys Bridges, Sara Sharpe, Elizabeth Swinford, Viola Martin and Mesdames Robert Gordy, Edgar L. Duke, of Fort Valley, and George M. Davis, wife of the host.

WHEN two attractive members of the forthcoming season's Debutante Club were playmates in the tiny tot set, they decided to make their debut together when they grew up. Their friendship has continued from those childhood days, and Dorothy Shivers and Eloise Gresham are going to do just exactly what they planned when they were four years old.

At that time, Dorothy's oldest sister, Caroline, now Mrs. Rich-

## Gives Recital Tomorrow

Miss Adrienne Holmes, pictured above, well-known concert and radio singer, will be presented in a song recital on Thursday evening at 8:30 o'clock at Peachtree Christian church. The program, which also will include violin solos by Marguerite Cooper Scott, is sponsored by the Women's Council of the church. Miss Holmes will be accompanied by Mrs. Victor B. Clark, organist and choir director of the church and member of the American Guild of Organists. There will be a small admission charge and proceeds will be used in the advancement of the women's work of the church.

ard Hardwick, and one of Atlanta's loveliest young matrons, was a popular debutante. She had such a wonderful time that Dorothy and Eloise were so impressed that they then and there resolved to make their debuts and enjoy life like Caroline Shivers Hardwick. And now comes the announcement Dorothy and Eloise will make their formal bow to society together at a brilliant football breakfast on November 21, preceding the Tech-Florida game. The elaborate affair takes place at the Piedmont Driving Club. Dorothy, the lovely daughter of Mrs. Lester Shivers, is of the titian-haired type, and Eloise, the attractive daughter of Mr. and Mrs. Irving Gresham, is a striking brunette, and these lifelong friends will present a charming picture in their debut dresses. Prominent Atlanta socialites will assemble for this brilliant affair, which had its real beginning years ago when two little girls sat making mud pies together.

## THE RETURN OF JOAN

BY JOSEPH McCORD

WHAT HAS GONE BEFORE:

Having lost her job in the city, Joan Kendall returns to her parents who own Layland Cottage near Waples Beach. One great thing Deeds McCune, on vacation because of eyes strained by long hours working on models used in window displays. He shows at being called an artist. Pretty Claire Lindsay and her wealthy mother are annual visitors at Layland. Gene Gist is Agnes Lindsay's son by her first marriage. Elderly Dr. Sloan Ellidge is a "nerve" case. He lost his wife and only child in a sea disaster. His brother John, also a physician, devotes his time to Sloan. When Claire tells Deeds that Gene had a "crush" on Joan four years ago his dislike of the naive young man increases. His heart jumps when Joan first calls him Mac, Claire, who practically traps him into swimming with her, she has a smashing frank. Gene, after trying music, illustrating and landscape gardening, is now now wheeling money out of mother. They see Dr. Sloan bathing in a secluded spot though Dr. John says he hates the sea because of his family's fate. They agree to say nothing pending developments. The Ellidges came on Gene's recommendation. Claire tells him. After saving Joan from the undertow, Deeds tells her he loves her. She says there is no one else but things must remain as they are. Deeds is surprised to learn that he is to be a New York friend. It drops from his pocket. Dr. John picks it up and later Deeds notices a thumb smudge on the paper. He says as he mulls over this he suddenly says, "All the alibis!" NOW GO ON WITH THE STORY.

INSTALLMENT XV.

"I know only one thing," Deeds said. "How badly I need you as a friend." Joan continued unhesitatingly. "I hope you will be silly," Deeds admonished gruffly. "You're stuck with me . . . but don't worry. I'll stay in my place. But I'll be more than a friend . . . even if I have to play solitaire . . . I'm sorry, but I can't help it. Just one of those things, I guess." Joan's hand came out and rested lightly on his clenched fist, half buried in the sand.

"Thank you, Mac . . . for everything. And I think we'd better start back to the house. It's all right, isn't it?"

"Sure. Everything's all right." Joan turned her head quickly, not daring to let Deeds see her eyes. She scrambled to her feet and tried to laugh as she experimented with her arms and legs.

"That sun is lovely," she remarked. "But something tells me I'm going to be stiff in the joints if I don't get moving."

"Feel up to walking?"

"Of course . . . but I don't want to run, just at first. Are you all right?"

"Fine. But I could do with a smoke. Hope you'll give me more notice next time you go to sea."

"I'll remember."

The walk back to Layland was made in silence. For some reason, both of them found it difficult to speak; they were too full of thoughts that could not be put into words, and the commonplace of life seemed strangely crowded out. Deeds strode along with his eyes fixed on the sand, trying to adjust himself to this new situation and not daring to speculate upon what might be passing through Joan's mind.

He was conscious of a cruel disappointment and a longing that he felt would always remain. Strangely enough, there was no feeling of resentment . . . unless it were the recurring fear that, perhaps, Joan was sorry for him. Sympathy was the last thing he wanted. Life had brought them together out of nowhere. He loved her. He always would love her. And that was that. It did not occur to him to doubt his love. Nor did he rebel at Joan's attitude. She couldn't help it. And there would always be an understanding . . . after this, Joan might need him. It would be his business never to fail her.

Deeds felt a moment's discomfiture as they neared the cottage and he saw Claire Lindsay sitting in a chair near the front door where they would have to pass. She was alone.

"Have a good swim?" was her careless greeting to Joan.

"Very nice."

Joan hurried into the house and Deeds attempted to follow, but was halted with a drawn face.

"Here you are, my friend. I know your nerves are ragged for one," Claire was holding out her open cigarette case.

"Why . . . thank you," Deeds accepted the offering and a folder of matches. Claire watched him quizzically as he lit his cigarette, then suggested in a low voice:

"That was a pretty swell thing you did out there."

"What do you mean?"

"Getting Joan out. I watched you."

"That wasn't anything. She was getting a little tired and we loafed in together."

"All right. If it suits you to be modest, I'll play your game. But you're not fooling me a bit. I went in and got her father's glass . . . I picked Joan up before you got to her. She was just about all in, and I don't mean maybe. You were pretty professional, the way you went after her. I liked it . . . so well that I climbed up on that sand hill over there and watched."

"There was no danger," Deeds insisted uncomfortably. "All you have to do is to keep your wits and not wear yourself out."

"Sometimes you have to clout the victim over her head," Claire smiled. "I was glad to see that Joan behaved so nicely. How about getting in touch with the Carnegie bunch . . . or whoever it is that hands out the medals?"

A dull red suffused Deeds' face. It was not because Claire was poking fun at him . . . he scarcely heard her last words. It was the sudden realization that she had been watching Joan and him through a pair of binoculars.

"Don't worry," she told him coolly. "I'm always discreet. I chucked the glasses and climbed down . . . when I saw the little girl was going to be properly thankful. I'd have felt the same way . . . I hope. If you've got any likker, you'd better take a shot . . . good prevention."

But Deeds was gone.

His mouth still was set in a grim line when he came from his shower and started to dress once more. It was very near time for the chime to sound and he dreaded facing the others at the table. He hoped, for Joan's sake, that blonde would have sense enough to keep her trap shut. She had said something about being discreet, but he had learned not to be surprised at anything she said or did. He wished he were not hungry. But he was. Undeniably.

To his surprised relief, Joan appeared in her usual place and without showing any evidence of the experience she had passed through. She met Deeds' inquiring eyes with a slight smile and turned to listen to some remark from Mrs. Beckham. What a grand little sport she was!

And Claire was kind, too. She made no reference to the episode and ate her lunch almost in silence. The talk at the table was general and of no consequence.

Telling himself resolutely that it would not be fair to attempt to seek Joan's company . . . much as he wanted to . . . Deeds decided that his own was preferable to that of anyone else. He wanted to think things over. He

had to. It was going to be a lot different after this. Although he did not feel in the mood for exercise, as would stroll up to Waples Beach and see if there were any mail for him. This time he was rewarded. It was a thin envelope, but the postmark was the desired one.

"You're stayin' down at Kendall's, aren't you?" the clerk asked, after apparently deciding it was in order to surrender the letter.

"Temporarily," Deeds admitted. He was tearing the end of the envelope. "Then tell your friends to send your mail in their care and . . ."

Rut Deeds was walking away, frowning as he glanced furtively through the few typewritten lines of his missive.

"Can you tie that one!" he muttered aloud.

"Well, here's a friend!" Deeds McCune looked up with a start at the words. He was emerging from the door of the postoffice, thrusting his letter into his breast pocket. The speaker was Dr. John Ellidge. With him was Dr. Sloan Ellidge. "Oh, hello!" the younger man returned in some surprise. "Out for an airing?"

"We thought a little sunlight would be welcome," John explained. "We've been stuck dark days recently. So we decided to drop up here and ask for the house mail. I see you have been fortunate." His blinking eyes watched Deeds' hand leave his pocket. "Did you ask for the rest of us . . . or do you get your general delivery?"

"I didn't ask for the house letters, I supposed Kendall had gotten them."

"He didn't. Wait a minute, if you're not in a hurry. We'll walk back with you . . . glad to have your company."

Deeds nodded. He was conscious that Sloan Ellidge was staring at him intently.

"Nothing for us," John remarked, when he rejoined the others. "Shall we be in our way?"

## MANNERS OF THE MOMENT

"The one thing I can't abide is ham."

Of course the rule about not discussing food at dinner parties is growing barmy these days. Most of us tossed it and its chaplains out together. On the whole, it's good riddance. Some of the best dinner conversations we have ever listened to have been about food.

But . . . there's one virtue in the old rule. It kept the pseudo-gourmets from saying, "I simply can't abide ham in any form," just as the baked ham was being brought out. Or from telling about the clam chowder they had in Marblehead two minutes before a bowl of Manhattan clam chowder was placed before each guest.

We'd say that a couple of shreds of the old rule might still be used in dinner party behavior, if you should ask us. We think that you should never mention soups until after you've eaten yours. We think ditto for each course. And we think that unless you have a good memory for everything that you have consumed at your host's table, it's best to talk about hockery.

Otherwise, food is a fascinating subject.

## STORY OF SPAIN.

III—The Great Armada.

Three and a half centuries ago, the people of England were in fear. Word had come that the Spaniards were making ready to invade and conquer England!

Spain, at that time, was looked upon as probably the most powerful nation in Europe. There were Spanish colonies in many parts of South America, in the West Indies, in Florida and Mexico. Gold and silver mines in Mexico and Peru were sending rich treasure to Spain.

In the year 1588 the Great Armada sailed into the English channel. There were 120 vessels, armed with more than 2,000 cannon and aboard were 25,000 soldiers and sailors. In addition, Spain had 30,000 soldiers in the Netherlands, waiting to cross to England as soon as the Great Armada came to protect their passage.

Eighty English ships, smaller but faster, were waiting for the Spaniards. They were under command of Lord Howard, and ruler of Spain grew very angry about the taking of his treasure ships. He was King Philip II, a man who has been called "hard-working and pious" and willing to perform cruel deeds to gain his ends.

To take revenge on the English, he ordered the building of the largest fleet ever known up to that time. It is now in history as the "Spanish Armada," also as the "Great Armada" or "Invincible Armada."

In the year 1588 the Great Armada sailed into the English channel. There were 120 vessels, armed with more than 2,000 cannon and aboard were 25,000 soldiers and sailors. In addition, Spain had 30,000 soldiers in the Netherlands, waiting to cross to England as soon as the Great Armada came to protect their passage.

Eighty English ships, smaller but faster, were waiting for the Spaniards. They were under command of Lord Howard, and ruler of Spain grew very angry about the taking of his treasure ships. He was King Philip II, a man who has been called "hard-working and pious" and willing to perform cruel deeds to gain his ends.

To take revenge on the English, he ordered the building of the largest fleet ever known up to that time. It is now in history as the "Spanish Armada," also as the "Great Armada" or "Invincible Armada."

## My Day

By  
**ELEANOR ROOSEVELT**

NEW YORK, Monday.—We drove to Albany this morning a little after 8 o'clock, giving a last affectionate look at the creation of our hands. We felt that sense of satisfaction that people have who have done something entirely different from their everyday occupations and found that they could do it moderately well.

We reached Poughkeepsie and my son, John, met us in his roadster. So many and varied were our bags that I wondered how he could ever get them into his rumble seat. He drove us to the cottage and in the lane I met my granddaughter, Sissy, on John's hunter, looking like a peanut on such a big horse. With her was one of the groomers and, unfortunately, our setter dog, Jack.

We speeded ahead to shut up the police dog, who was apt to quarrel with the setter. Sissy was serenely confident because the police dog had been shut up the day before, and she thought that he would be today. However, he was out and for one moment I thought we would have a tremendous dog fight. Instead, there were snarls and much noise, and John shoved Jack into his car, where he lay peacefully and repentantly while the police dog disappeared.

When all this excitement was over John changed places with the groom and rode off with Sissy, leaving the groom to drive his car back so he could take us to the station.

After this, Mrs. Scheider and I were confronted with two desks simply covered with mail. We did our best to pick out the really urgent letters and made a large package of the balance to take back to Washington.

Sissy and Buzzie came over for a brief visit, but this time without any dogs! At 12:30 John was back. We left two bags, but we had accumulated two bundles, so the rumble seat was as full as ever. If John had grown up a generation earlier, so that he could remember what some of the bundles at Ellis Island looked like, he probably would have told us we were a good copy of an immigrant family on the move.

Of course he remembered after he came back for us, that he had forgotten some mail which he wanted Mrs. Scheider to take care of for him, and as he had plenty of time we stopped at the big house, and made our train comfortably.

On the train Mrs. Scheider and I went into the buffet car for something to eat, and found ourselves very close to a table full of London button-wearing men, very prosperous looking businessmen. If I had been sure of their sense of humor I should have passed out a little pamphlet gotten out by the "Businessmen's League for Roosevelt," which tells of all the good things that have happened to business since March, 1933. I was afraid they might not see it my way, so I restrained this mad impulse.

After an hour at Democratic headquarters, a little shopping and a stop at my apartment, I will be on my way to Washington.

## Miss Helen Clark And Paul Seydel Honored at Supper

Listed among interesting and delightful parties honoring Miss Helen Clark and her fiancé, Paul Seydel, whose marriage is an important social event of Friday, was the Dutch supper and kitchen shower given last evening by Miss Louise Brown, at her home on North Decatur road. Quantities of autumnal foliage combined with greenery formed the attractive decorations, carrying out a color motif of red. Miss Clark has planned a color scheme of red for her kitchen when she begins housekeeping and Miss Brown arranged an attractive and colorful array of gifts in red.

Mr. and Mrs. H. W. Brown, parents of the hostess, and Mr. and Mrs. Fred S. Gould assisted the hostess in entertaining. Miss Brown received her guests wearing a black organdy model and Miss Clark was gowned in violet chiffon.

Present were Misses Clark, Jane Clark, Lillian Willett, of Washington, D. C.; Katherine Gady, of Chicago, Ill.; Anne Bishop, Paula Bishop, and Paul Seydel, William Sherbondy, William High, Cecil Jones, Henry Banks, George Arias, Lee Laney, Colonel and Mrs. John A. Clark, and Mr. and Mrs. Paul Seydel.

## Miss Betty Mathis Is Honor Guest.

Miss Jean Chalmers gave a luncheon yesterday for Miss Betty Mathis, a bride-elect, at her home on Penn avenue. Mrs. Charles Chalmers, mother of the hostess, assisted in entertaining.

A centerpiece of garden flowers graced the exquisitely appointed table. The place cards were ornamented with tiny silver wedding bells, carrying out the bridal motif. Guests were Misses Mathis, Alice Reine, Douglas Lyle, Sally White, Frances Cartledge, Eleanor Whitson, Jane Turner, and the hostess.

## Birthday Recital.

## WORKERS' GROUP OUSTS 6 LODGES

Orders Charged as Communist; Federation Said Opposed to F. D. R.

DETROIT, Sept. 15.—(AP)—Delegates to the annual convention of the American Federation of Government employees voted today to withdraw the charges of six lodges, charging they were Communist.

The lodges are those of the Securities Exchange Commission, the Farm Credit Administration, the Railroad Retirement Board, the Agricultural Adjustment Administration, the Public Assistance Division of the District of Columbia, and the WPA at Boston.

The delegates took the action by a vote of 161 to 40, confirming a recommendation by the federation's executive board.

During the debate that preceded the vote, John Dwyer, a member of the AAA lodge, asserted that more than 40 persons had been dismissed from service in the AAA because they were Communists.

Henry Ryan, of the Boston WPA lodge, described the charges as "fantastic." He asserted the federation's executive board was opposed to labor and to the Roosevelt administration.

LIFE LINES AND CHIN LINES.

The fortune teller can predict how long you are going to live from your life line . . . but chin lines tell how long you have lived.

Steal a side glance at the chins of other women. Those with lovely throats will leave you in doubt as to their calendar age, but others will send you hurrying to the mirror to see if the artist, Time, has etched as deep lines in your own throat.

As the years are inclined to relax, and lazy muscles offer a happy haven for adipose tissue. Vigorous circulation is your fountain of youth, so take this tip and prod your circulation into chin loveliness. Exercise to stimulate circulation and to strengthen throat muscles. When the muscles become buried in fat, flabbiness results. Throat muscles that are weak and lacking in tone and fullness allow skin to fall into tell-tale little creases.

All chins need exercise! First, pat in a skin food, warm muscle oil, or a mixture of one part mineral oil to two parts of melted cocoa butter, which is applied from the throat down the neck, stretch your neck. Turn the head to the right, parallel with the right shoulder, then stretch it well as you lower the head backward and circle toward the left shoulder.

The next exercise is a bit frightening, but it will secure the creases away. Open your mouth oval shape. Now, thrust your chin out exactly like a turtle. Pull upward with your lower lip and at the same time lower your head backward. Do this movement slowly and think 12 counts. Relax, smile; repeat not more than three times, and each time concentrate on the throat muscles. This exercise is strenuous, but it will work miracles on your throat.

Remove the oil with tissue and dash cold water over the throat. Never apply hot water following exercise.

On the subject of throat protection: First, last, and always, take every pound of weight off slowly. Given the opportunity nature will leave your skin smooth and firm and youthful. If you try to lose weight rapidly you may expect horrid little folds of skin which are so easily acquired—but so difficult to eradicate. Assist nature to

tighten the skin as you slim down by exercising your chin and throat muscles.

We have a complete set of chin exercises in a leaflet "Let's Chin for a While—Exercises for Twin Chins."

By exercising her throat muscles, the woman of 50 may have throat and chin lines like a girl's.

## A Toilet Water That Is The Most Delicate Kind of a Body Perfume

By MIGNON.

(The Mignon who writes this column does not sell, endorse or manufacture any cosmetics.)

If you want one of the best toilet waters that you ever used in your life, and don't want to pay very much for it, I am here to tell you where you can get it. It is not new, but it certainly has stood the test with me.

Whenever anybody asks me for the name of a good toilet water, my mind runs back to this one as a sure hit in which the inquirer cannot be disappointed.

For the life of me, I couldn't tell you what the fragrance of this toilet water is, but I can tell you that it is a quiet, elegant, ladylike affair that would never make anybody glad to get out of the elevator in which they had been riding with you.

The best way to use any toilet water, and especially this one, is to pour

it into the palms or over the body after a bath. Then either pat or rub it into the skin. In this way a woman is perfumed exactly enough, never too much.

The art of perfuming one's self is one of the greatest in the world, and one in which the French women are specially excel. The way for any woman to be most attractive is to bathe daily, perfume herself carefully, wash her hair every week and not put on too much makeup.

If you want to know where you can purchase any article mentioned in this column, please write to Mignon at The Constitution. Please do not write unless you live outside the city, in which case enclose a stamped, self-addressed envelope.

## MEXICO OBSERVES

**Citizens Celebrate National 126th Independence Day.**  
MEXICO CITY, Sept. 15.—(AP)—  
Amid unsubstantiated charges and counter-charges of revolutionary plots, Mexico tonight began celebration of its 126th independence day.  
Officialdom paid little attention to the charges by Herman Laborde and other leaders of the Communist party that Conservatives, including high government officials and militarists, planned a revolt and possibly an attempt to end the life of President Lázaro Cárdenas.

Officials showed no greater concern for the recent assertions of veterans that Communists were plotting mass assassination of Rightist leaders.

At Caracas, the United States published five other American newspapers on their anniversaries of independence from Spain, led Mexico to its own celebration.
